Trust each and every one of you had a safe and joyous holiday season and will have a prosperous New Year.

After a few week's tough weather perhaps some of the classified ads and mail bid sales in this issue will get the ball rolling in this new year. The rough draft roster should effectuate a flurry of letter writing among the membership. This roster is a rough draft - hence if your collecting interests have changed or whatever, please remit new changes as soon as possible. This won't be a fancy roster, however, it should give enough information to enable the membership to foster some trading activity on their own.

1979 METCA DUES ARE NOW BEING ACCEPTED. THIS IS A REMINDER. THE JANUARY ISSUE WILL BRING YOUR 1979 MEMBERSHIP CARD IF YOU HAVE PAID YOUR DUES. THANKS TO THOSE WHO HAVE ALREADY REMITTED THEIR DUES.

Several of the 1979 issues of Trade Token Topics will appear with the old format of stapling a cover page over the issue. A few issues will still have a manila envelope. While the envelope makes for a clean delivery of your issue, the monthly cost of that service is rather high (with paper costs and postage rates so high).

Thanks to the great number of you who sent in letters of fond memories you shared with Hepp and Clarence Ziegler. They are very much appreciated.

REMINDER - Don't forget to order Terry Trantow's 272-page catalog on lumber tokens. The catalog contains 14 pages of photos and sells at a price of \$11.00 postpaid until 1 Feb 1979. Order at: P.O. Box 524, Ellensburg, WA 98926.

The Phoenix Coin and Hobby Bourse, 3105 East Osburn, Phoenix, AZ 85016 is having a March 4th show which will have a special room off the bourse for exnumia.

WASHINGTON STATE SCRIP CATALOG - The Northwest Token and Medal Society is now taking orders for its catalog of Washington State Scrip (includes all the Tenino Wooden Money issues). The alphabetical listing of town scrip in three-ring binder form will cost \$6.95. Orders for the catalog are now being accepted by Nina Nystrom, P.O. Box 17183, Seattle, WA 98107.

Attended the January 3rd banquet of the Northwest Token and Medal Society (Seattle) (founded by Clarence Heppner in 1967). The banquet attended by eighteen members focused on working out details for a founder's award in Hepp's name to be given out each year.

COEUR D'ALENE COIN SHOW MARCH 2-4, 1979 - To be held at North Shore Convention Center with Coins - Antiques - Tokens. Mike Fritz will be there as will be John and Bonnie Calhoun (Bonnie and John's Trade Tokens). Other members are sure to attend the show. At this moment I am contemplating attending the show.

GEORGIA STATE TOKEN - EXONUMIA ASSOCIATION - Recently formed with plans to hold an annual meeting and publication of a quarterly news bulletin. Annual dues - \$3.00. Interested collectors should contact John F. DeLoach, 3059 Templewood Drive, NE, Atlanta, GA 30313 and enclose a large SASE which will help in giving prompt replies for membership information.

Due to the length of the membership roster a number of articles sent in will have to appear in later issues.

Don't forget for \$2.50 you can get the 1977 and 1978 Supplement to the Index of TAMS - Listed Mavericks from Sam Ruggeri, P.O. Box 145, Canton, OH 44701. If you have found the Index to be useful, you should purchase the Supplement.

Glad to hear that Al Zaika (out of commission for several weeks as a result of an auto accident last month) is getting back to normal. Our best for a complete recovery, Al.

TMC COINS & COLLECTABLES, INC. 455 MAIN ST., JOHNSON CITY, NY 13790 1-607-797-1554 (Gary Pipher) has Auction #3 available with a closing date of Feb. 3, 1979. Almost 2300 Exnumia items appear in this auction. In addition, a large collection of Masonic items at fixed prices is available for a large SASE. Gary reminds bidders that to get the next three editions of Exnumia Sales a base price of \$3.00 is needed. Prices Realized will cost an additional \$1.50.

CATC HIGHLIGHTS: DUES of \$2.00 should be remitted to Elaine Willahan, CATC Sec., 516 W-99th St., Los Angeles, CA 90044. CATC meetings are a must if you are in the LA area during one of their meetings. METCA gets a nice plug in the Jan issue. Editor Steve Alpert is currently typing the camera-ready manuscript for the new amusement token catalog authored by Ken Smith and him. It is hopeful the catalog will appear by summertime. Steve, by the way, will be writing a monthly column (illustrated) on amusement machine tokens, beginning in the Feb. issue of Loose Change. Lew Sutton's maverick listing (national project) is outlined in CATC.

27 Dec. 1978 Coin World Highlights: p3 - Superior Coin donates the Goetz medal collection to ANS; p6 - Nevada Gaming Board sets Token Guidelines; p13&16 - T.R. Dec 1978 Fare Box Highlights: Nice eulogy to Clarence Heppner by friend and editor John Coffee. Dues Reminder - \$7.50 for 1979 - Mail to Tony Frisbee, 211 King St., Denver, CO 80219. Report on a number of new finds in the transportation field. Ralph Freiberg writes on TT's the same size as U.S. coins. Supplements to Ken Smith's World Transportation Catalog, Atwood's Catalog, Feisel's Parking Tokens and Ford's Car Wash Catalogue. The 5th Auction of the Thomas Sprague Collection appears as well as a number of other short features.

Don't forget Lou Sutton's project of compiling a national maverick listing. Lou's goal is providing a source for the identification of all U.S. mavericks. Lou requests that all token collectors send their listings of mavericks - rubbing, metal, size and shape, legends. Write: 4819 Poolside Road, Virginia Beach, VA 23455.

JAN 1979 SCRIP TALK HIGHLIGHTS: 1979 Dues - \$5.00; Spring NSCA Meeting - Hawk's Nest State Park, Ansted, West VA 25813 on May 4th -5th; Walter Caldwell's Want List; Gordon Dodrill's "Spotlight on Tokens"; Robert Craig's report on the Black Star Coal Co; Scrip Restrikes found in Corbin, KY; Reprint of a special brochure of the Route and Resorts of the Chesapeake & Ohio Railway; Feature on Longdale Iron Co. of Sewell, West VA; Discussion on Cleaning Tokens; Col. Caldwell's Mail Auction #53; New Scrip Book out by Stuart E. Brown, Jr. of Berryville, VA NSCA price \$19.50 before March 1st from Virginia Book Co. Berryville, VA 22611.

Jack Harvill, Ephrata, WA collector of WA state tokens is embarking on the project of cataloguing all the tokens known from Adams, Grant, Douglas, Chelan, and Lincoln counties. All members having tokens from these five counties are asked to cooperate with rubbings and descriptions of tokens from these areas. (Box 362, Ephrata, WA 98823).

Bary D. Bender, 752 N. 74th, Seattle, WA 98103 is going to catalogue all the tokens from the counties of Columbia, Garfield, Asotin, and Walla Walla (excepting town of Walla Walla). The town of Walla Walla is the domain of Francis Christiano. I would appreciate hearing from the membership on any tokens from the towns named in the four counties. Postage will be refunded on responses.

Doug Rice, Montesano, WA is attempting to catalogue tokens from the towns appearing in Grays Harbor County. The towns appear in his classified ad in this issue.

Perhaps with these county/counties efforts we might spur others to do their county and hopefully eventuate a catalog for the state. At any rate we are working on a partial state catalog with these efforts.

Take advantage of the classified ad section in Trade Token Topics. In submitting mail bid sales kindly close the sale two to three weeks after receiving the issue rather than a given date. Regular full page ads should be typed on regular type writer paper and I'll reduce it so you don't lose listing a greater quantity of tokens. Dues for 1979 are \$7.50.

Sheriden High School Lunch Tokens

During the past four years a hoard of aluminum tokens has infiltrated the market place. At first, most of these tokens were properly advertised; however, over the past two years many have been offered as being from Sheriden, Wyoming.

with plastic tokens that read

I would like to use this opportunity to provide some additional information on these tokens.

Over two years ago, a friend, Harry English, wrote to the two school systems asking about the use of these tokens. The reply he received from Wyoming was that tokens had never been used there. In the meantime his reply from Colorado stated that the tokens were used there (Sheriden, Colorado), and they were replaced Sheridan / Schools.

ODD AND UNUSUAL TOKENS

BRASS 25MM ROUND PLAIN EDGE

OBV Souvenir/Haymarket/massacre/Chicago/.copyrighted.

REV (Around a center portrait of an exploding bomb)
Anarchist bomb exploded May 4, 86.

This one of the more interesting "made from" or "bi-metal" tokens, though it falls strictly into neither category! The dark spot center reverse is purportedly part of the bomb struck into the token. Close microscopic examination proves this beyond a doubt. I point out this piece for 2 specific purposes. First, no mention of the piece of the bomb being struck into the token is made on the piece, so anyone who might find this piece will hopefully know it is no ordinary token! Secondly, I note only 3 pieces offered for sale in auction catalogs over the last decade. The rarity is apparent! Should anyone have any doubts as to the authenticity of the token I have been told this piece has been known since the late 1940's, a period when spurious tokens were not popular due to low prices at this time!

ALUMINUM 35MM ROUND PLAIN EDGE

OBV The Turner Brass Works.Chicago./.make./anything/in metal

REV (Around gymnast on high bar) What can the Turner make for you

Of interest as a brass works token and one which very cleverly utilizes the device with the wording! It is notable that the gymnast, whether attempting a handstand or swinging on the high bar, would hardly qualify for a present day high school team with this move in his routine! It is imperative that both feet remain together at all times, and a break (mistake) such as this is not tolerable.

Mr. Editor: News Release - Effective immediately!

Mr. James Curto's second book of Military Tokens of the United States is now in preparation and will be available for delivery about April 25 of this year.

Work on this book, patterned somewhat similar to book I, has been an ongoing project since the publication of Curto's first book on military tokens in 1970. Mr. Curto has now prepared a new comprehensive listing of some 3000 or more additional tokens, approximately as many as are in the first listing! Included are more than 100 photographs of some of the most exciting tokens in all exonomia! All the tokens are priced in accordance with prevailing market prices.

Primary coverage includes unlisted series issued during the Vietnam conflict plus hundreds of listings of airfields, mess halls, barracks, camps and posts which tell a story of that steamy, tropical hellhole which no book could describe.

Also included are ships' tokens which saw use coming and going during the Second World War, old tokens handled by Indians, post traders and horse soldiers in the infancy of our West, Commemorative medallions issued to honor great military men, events and places, such as the explosion at the Allegheny Arsenal in 1862 and hundreds of other tokens used in military hospitals, post exchanges and forts.

In addition, there are updated and enlarged listings of (1) military abbreviations, (2) forts, camps and other military installations which, at this time, are not known to have issued tokens, (3) descriptions of some 70 military token dies known to exist and (4) perhaps most importantly, a comprehensive Key Word Index which lists tokens covered in both this and the 1970 book. All tokens listed in either book are referenced here.

This necessary companion volume to Curto's first book will be issued in a quality, hardbound cover, in the popular 8 1/2 x 11 size. We are pleased to announce, that, in spite of runaway inflation in the outside world, the price of this book will be at the same level as the 1970 book! Advance orders, at \$10, will be accepted until April 15, 1979, after which the regular price of \$12.50 will be in effect. Advance orders may be sent to Michigan Exonomia Publishers, Post Office Box One, Tecumseh, Michigan 49286.

Irene Alexander, past TAMS Librarian and active PNNA and Inland Empire officer, took several color photographs at the Seattle (Pacific Northwest Token and Medal Jamboree) October 28th which she is making available to interested parties. For 25¢ per photo and a SASE Irene will have prints made of the photos you might be interested in. I'll describe them for you and you make your orders directly to Irene at P.O. Box 11555, Parkwater Station, Spokane, WA 99211. The four color shots available are: #34 - Features Nina Nystrom of Seattle, WA at the reception desk with Lorin Cranson and Joe Smith, Juneau, Alaska collectors, looking over material at the bourse table of me (Bary Bender); #35 - Features Kenny Kriete from Ephrata, WA, standing in front of the bourse table of Lewis L. Egnew of Port Townsend. Seated with Lew is Gene Kirschten from Elgin, OR, while Jon Aho, Gearhart, OR collector looks on. The background features the bourse table of W.W. Walker from Lynnwood, WA and Robert Alexander of Spokane; #36 - Features a picture of Clarence Hepp Heppner (probably the last photo taken of Hepp), Ralph Burry from Vancouver, B.C., John Calhoun from Post Falls, Idaho and Bob Keck from Edmonds, WA and Mike Fritz from Rathdrum, Idaho in the background; #37 - Features Wallis Stier from Everett, WA looking at the material of Earl Campfield from Edmonds, WA. All the pictures are clear and sharp. Let Irene know the number you want and the qty. Thanks to Irene and Bob for taking the pictures and making them available to the membership. And thanks again for the help you rendered at the October show.

Dan Benice, 9441 Bethany Place, Gaithersburg, MD 20760 Member #552 has different collecting interests than those which appeared in the Jan TTT. His interests: Advertising tokens, Florida merchants, Encased good fors, and billiard manufacturers.

Will member, George Gould, please submit a progress report on the Montana catalog. A large number of members have written me regarding its status since the METCA announcement months back. Your editor would appreciate 1979 progress reports from the rest of you cataloguers.

Please note the classified ad of Tom Wall. Tom has been in and out of the hospital a total of 18 days since Thanksgiving. The cold spell that has raised havoc in the midwest has also kept him inside hence the delay in Tom's mail bid listing.

METCA member, Francis Christiano (WA state collector and Walla Walla) and his wife, Nadine, have recently opened their new business - Old Ft. Walla Walla Trading Post - Outfitters to the Muzzleloader, Buckskin and Mountain Man - Rt. 2, Box 49, Walla Walla, WA 99362. They probably have one of the few muzzleloader gun shops in the nation. I know they are very active at the gun shows and local muzzle loading shooting matches. Good Luck to you two.

Harry Campbell, Utah cataloguer, reports ULATCO will be displaying material at the Salt Lake City Spring and Garden Shoe March 1st - 4th. After the show Harry will give us an update of ULATCO happenings.

A number of AVA personal token collectors have written me regarding the personal tokens of Clarence Heppner. As I recall there are four he issued, however, they aren't readily available. He passed so many out over his active exnumia years that they are all in collector or friends' possession.

The University Coin Club is presenting its thirteenth annual Coin and Stamp Exhibition at the Norway Center, 300 3rd Avenue West, Seattle, WA, Saturday, March 3 - 10 - 7 and Sunday, March 4th - 10 - 5. I know many of the local token bunch will gather there for some trading.

Bids on the Penny Type Set (proceeds to go to Chriss Christiansen) should be mailed to the editor at 752 North 74th, Seattle, WA 98103. Bids will be accepted through February.

Regarding this matter - Chriss has just enough tokens to cover the ad. Due to his illnesses, operations, hospital stays, theft of his tokens and coins, and now the amputation Chriss has just enough tokens for the ad. He has no collection to trade. Chriss relays his heartfelt thanks to those who have responded. I've received a number of calls on this matter and it is indeed nice to see the membership come to the aid of another member like this. Chriss Christiansen, Box 651, Cupertino, California 95014. Ad appears in the Oct/Nov 78 TTT.

Reminder - James Curto's second book of Military Tokens will be available about late April. Advance orders are at \$10.00 until April 15th. Send advance orders may be sent to Michigan Exnumia Publishers, P.O. Box One, Tecumseh, Michigan 49286.

Please get your 1979 Dues in to METCA, 752 North 74th, Seattle, WA 98103.

On the Georgia State Token - Exonumia Association notice - the zip code was mistyped. The address should read John F. DeLoach, 3059 Templewood Drive NE, Atlanta Georgia 30319.

Williges, P.O. Box 445, Wheatland, CA 95692 has a new 20 page fixed price list of exonumia available to members on request. Mention METCA and you will receive a free token, too.

Terry Trantow's Lumber Catalog should be mailed out before the end of the month - delay beyond his control.

Don't forget to attend the Phoenix Coin and Hobby Bourse, 3105 East Osburn, Phoenix, AZ 85016 on March 4th. There will be an exonumia room at the show.

Most of the back issues have been mailed out. There are a number of issues that are not available. After I get the bulk of the issues sent, you can later submit a list of some of the copies you are missing. They were mailed third class; most at a cost under \$2.00.

Address Changes: Bill Massey, 1141 Wagon Wheel Ct., San Dimas, CA 91773
Irwin Reuben, 59 W. Great Miami Blvd., Dayton, Ohio 45405.

If I am not mistaking, Dean Hyland, thirteen year old son of John Hyland, former staff photographer for the Indianapolis Motor Speedway, is our youngest member in METCA. Their exonumia interests include 500 Indianapolis Speedway items plus A.J. Foyt items. Address: Dean and John Hyland, RR3 Box 281, Pendleton, Indiana 46064. Welcome aboard!

Phil Klabeil, Illinois collector, sent in a nice postcard of the interiors of Hickey Bros. places. Needless to say, they were quite elaborate. I am trying to get a photo of it prepared for a later issue of TTT.

You will find in this issue a "Trial Listing of New Orleans Trade Tokens". The list is a joint effort of Ed Tylenda and Glyn Farber. Ed joined Glyn in his cataloguing efforts about a year ago, having collected for about two years. The cataloguers note that there are several, in fact, almost all, mavericks in the list. The list, by the way, represents all New Orleans known to them at this time. The list does not include any Store Cards or modern issues. A few rubbings accompany the listing. (TO BE RUN IN TWO SEGMENTS).

John H. Stribhei, P.O. Box 20438, St. Petersburg, FL 33742 Tel. (813) 525 - 1754 has a 27 page listing of exonumia and foreign coins available. The fixed price list contains 1,065 exonumia items. Get on his mailing list for List 39.

The Fare Box Jan 1979 Highlights:

Hats off to John Coffee, Jr., Editor of The Fare Box, who edited this fine publication for the past thirty years. That is an amazing record in light of the fact that a month seems to roll by sooner when you are an editor! John lists Taxicab Charge Token on page 3 & 4 of the issue. Supplements to Personal Tokens of Vecturists, Parking Tokens, Car Wash Tokens, and Atwood's Catalogue are given. New Issue Service and Index to Volume 32 are included. Remember the 1979 AVA Annual Convention will be held August 12, 13, 14 at the Sheraton Hotel in Philadelphia. Send \$7.50 dues to R.K. Frisbee, AVA Treasurer, 211 King St., Denver, CO 80219.

Scrip Talk March 1979 Highlights: \$5.00 Dues to Walt Caldwell, Box 29, Fayetteville, W. VA 25840. The Spring Meeting will be held May 4 - 5 at Hawks Nest, W. Va. Gordon Dodrill relates on four firms issuing tokens in "Spotlight on Tokens". Robert Craig answers some questions from the membership in the mail department. Colonel Caldwell introduces Mail Auction No. 54. All token collectors should familiarize themselves with the Scripident Chart. Paul Cunningham handles the Classified Section of Scrip Talk.

WESTERN TOKEN LEDGER - DECEMBER 1978 HIGHLIGHTS:

Dues for 1979 will be \$7.50 and should be mailed to Sec-Treas. Bill Williges, P.O. Box 172, Orland, CA 95963. Western States Token Society will have a roster in 1979. Reports on a Bicentennial Catalog and a Gaming Tokens. Report on the Seattle Token Show and Death of Clarence Heppner. Poignant Book Reviews are given on Stuart E. Brown, Jr.'s Scrip, Lloyd Walker's Catalogue of Oklahoma Tokens, and Rossen and Kaduck's Columbian World's Fair Collectibles. Part IV of Jerry Schimmel's Token Hunting in San Francisco is featured. Stephen Alpert offers more information on the 26 Dice Gambling Game while Charles Kappen comments on the Roseland Bar (CA token). A number of short articles and the classified section accompany this issue edited by Stephen Album and Duane Feisel.

THIS ISSUE will inaugurate a new METCA series - a column by South Dakota exonomist, Bill Clapper, on unusual old mavericks. I think you will enjoy the articles or the mystery of the mavericks as Bill has addressed this column. This series should complement the columns of Lee Nott and Joe Schmidt that appear in each issue of Trade Token Topics.

Don't forget to send for the free catalog of exonomia appearing in a mail bid sale of NEW LOUDON COIN GALLERIES, INC., 728 NEW LOUDON RD., LATHAM, NEW YORK 12110. (518) 783 - 7914.

TERRY TRANTOW, METCA member from Ellensburg, Washington, who is author of the new Lumber Catalog and currently cataloguing Oregon merchant tokens, is going to host a TOKEN JAMBOREE MAY 19 and 20 at the HOLIDAY INN in Ellensburg. A complete ad for the show will be in the next issue of TTT. The show will be on the same lines of the past October show with inexpensive bourse fees, hourly drawings of free full page ads in METCA, back issues of Trade Token Topics, exonomia door prizes, etc. Terry will probably enlist the help of METCA members, Lyle Horst, Jack Harvill and Kenny Kriete from our Central Washington state members. This announcement, while sketchy, will serve to remind you to make plans to attend the show.

Future issues of TTT will feature a second supplemental listing of MISSOURI ENCASED CENTS by Michael and Sandra Pfefferkorn (it will take two issues for the listing to appear in full).

Get your 1979 dues for METCA in as soon as possible. \$7.50 is not too high a price for our monthly newsletter containing 28 - 32 pages.

Why not share an exonomia article with the membership!

METCA MAVERICKS

ATTRIBUTED:

- 1261 Eastern Outfitting Co - Portland, Ore (Terry Trantow informs me that this firm was at 401-405 Washington from 1907 to 1910, and 10th and Washington from 1911-1940. Meanwhile, Agnar Wahlberg states that they also had a store (or stores) in Los Angeles. Terry feels the token may not date back to 1907-1910; do any of our members have more definitive information on this token?)
- 1267 Damians Place - St Paul, Minn - (Lewis Ferguson)

THE MYSTERY OF THE MAVERICK

By Bill Clapper, METCA 25

This will be the first of a series of articles in Trade Token Topics about the maverick, one of the most underrated areas of collecting.

I first started collecting mavericks some years ago when I found that I was always the second guy to go through a dealers book of tokens. The other collector had picked the tokens with town and state and had left behind the maverick tokens. Not being one to leave behind nice looking maverick tokens I started picking out the nice, old and unusual mavericks. Too, I traveled all over the United States and so had more opportunity to pick up this type of material.

I now possess a collection of about 1,500 old mavericks from all over the United States. It contains no modern or common mavericks, but as mentioned, nice old and unusual mavericks.

To me, the maverick holds a mystery that other tokens do not. Oh, you may wonder what a token you have might have been used for but you can find that out by going to old business directories, and you know what town to look under because it is on the token. But, the maverick is something else. You can wonder what it was used for but also what town, in what state. Was it a ghost town? Was there some intrigue connected with the token because the owner did not put his location on it? Nice old maverick initialled tokens carry even more mystery with them. Was there more intrigue? Was he wanted by the law back in those early days? In some cases I'm sure that the owner hoped that the token would not find its way back to his business being more profitable to him.

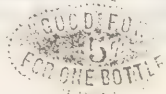

By not collecting nice old mavericks a collector is passing up an opportunity to add much to his collecting.

In each issue I will list some of the unusual and interesting old mavericks so that other collectors can see what it holds in mystery and interest and why there are a few very serious collectors of mavericks.

For example, I have never seen a U.S. token with Blacksmith on it. That may not have been his business, I just don't know, but it is interesting because A. H. Gordon uses "POPULAR" Blacksmith. It may have been a Saloon? It has an unusual denomination and is an old token. But, why would a blacksmith issue a token, if he was truly a blacksmith?

Then, what was the Arapahoe Butter Shop (bust of an Indian Brave, feathers and all)? Return bottle to 1037 15th St. Tokens with busts of Indians are rare in themselves and yet this token was passed up by a collector intent on finding tokens with town and state.

THE MYSTERY OF THE MAVERICK, continued

The T. B. Gasparetz token is most interesting because it holds a great deal of mystery. Was Opewell and Tunnel the names of towns? The names of other owners of the business? Being a 12½¢ token it was no doubt from a Saloon, but where? Was Opewell Tunnel really a Tunnel?

Unusual oval tokens and ribbon tokens have always interested me and especially when the oval tokens are a longer oval such as the Cox & Higgins token. This was no doubt a saloon. I found this token in Kansas City, Missouri at a junk dealers. The dealer had never heard of the place and I completely forgot to ask him if Kansas City, Kansas or Missouri had a Central Square. Many communities had Central Squares so what Central Square, where?

For one to get another good picture of some very nice old mavericks he needs only look through the maverick section of TAMS. I hope that the time will come when Lee Nott can take pictures of the mavericks he lists and also that I will be able to show photos rather than impressions.

My main interest in these articles will be to show that maverick collecting is an interesting part of collecting tokens and I see no reason why a collector collecting just mavericks can't have as interesting a collection as any one else.

For beauty, interest and unusual old tokens I'll lay my maverick collection up again any trade token collection. That is not a Challenge. I'm just trying to show the interest in maverick collecting.

See you next month with some other very unusual and interesting mavericks.

UNUSUAL TOKENS

GILT BRASS 21.5MM ROUND

OBV Sky Rocket/Skokie Blvd. (sky rocket rising)

REV Schlitz/10/Route 41

ODD AND UNUSUAL TOKEN EDITOR
JOSEPH SCHMIDT
BOX 471
BENSENVILLE, ILLINOIS 60106

Old balloon tokens are now avidly being collected, therefore it follows that in years to come pieces showing rockets will be popular. This somewhat modern issue also mentions a beer name as well. Most interesting is the fact that Skokie Boulevard and Route 41 are one in the same! This fact and the attribution to Skokie, Ill. were given me by Russ Mannette, an Illinois exonomist.

Your October/November METCA double issue which featured the "Fair Gallatin" token in this column drew quite a response! Nearly a dozen METCA members noted this as a Montana piece. Most interesting are the similarities between two distinctly different areas of the country. Both Southern Illinois and Montana feature a Gallatin county and the slogan "Egypt of America".

If METCA members own "Token Collector's Pages" by the Fuld's, turn to page 185 and you'll see this same token featured. The book is a compilation of the Numismatist's "Token Collectors' Page" which appeared often from 1951 to 1961. The authors knew nothing of this token and asked readers to advise them "who Bozeman is" and "what state he was seeking office in"! I am not aware of any response but I do know many thousands of ANA members receive this excellent publication. This points out to me how obviously informed and helpful METCA members are! I doubt if the response to the Numismatist's article exceeded the dozen letters I received.

Now for the real story behind this token! Following Montanas' entry into the Union in 1889 Bozeman (not a person!) as well as the Montana towns of Missoula and Helena were competing for State Capitol. Election to select the new Capitol was held November 8, 1892. Helena, the largest city in the state at the time, won easily. Before the state was settled John Bozeman (for whom the Bozeman trail was named) was killed by Indians between the present towns of Bozeman & Livingston.

Although not at all common, most Montana exonumists are familiar with this piece, of which 2 distinct varieties exist. The obverse of the 1st bears ornamental stars before and after "Fair Gallatin" missing on the 2nd type. The reverse ornamentation above & below the transcription is more ornate on the first type as well. The BCC monogram probably refers to the Bozeman Chamber of Commerce or Bozeman Commercial Club.

This columnist enjoyed all the information received and that which is probably forthcoming. Now the "story behind the token" is known! Special thanks to avid Montana collector Lew Egnew, Ben Odessor and Glenn Rome (who was kind enough to send his personal token) and all others who wrote! The "GE tube token" is common in the west and I have noted several since writing about this piece. It seems the object to the left on the obverse is a TV tube & not a speaker. This dates the token to the 1950's or early '60's in all probability.

More news regarding the OCT/NOV column's "Bozeman for the Capitol" piece! Ford Knight sent along much information I did not have and I thank him for his time! Ford enclosed these rubbings of 1894 stickpins (as he notes below the rubbings) and also included this rubbing of a companion piece to the "Lackawanna RR" advertising/timetable token featured. Again, should this be considered a "timetable" token? Ford thinks these pieces uncommon and I tend to agree, however one must always think twice regarding rarity when two similar tokens are known!

1894 STICK PINS 1894

THE READERS RESPOND!

Since this columnist brought the Lackawanna timetable/advertising/key tag of Phil Mandel to attention in the OCT/NOV column and asked for opinions as to whether or not this was a timetable piece 5 people owning like tokens have written. Phil Mandel has sent rubbings and a full description to the American Vecturist Association's organ, The Fare Box, and recieved no answer. Al Zaika, your "METCA MONITOR" editor writes "In my estimation, these tokens should qualify as timetable tokens and should be listed in Atwood's catalog, but apparently no one in the AVA agrees with me. I reported the piece to Ralph Frieburg, the New Issues Editor for the Fare Box but.....he responded the piece would not be listed in the Fare Box". Thanks to Al for his response and I hope he'll understand my slight "editing" of his letter. As of now, we have 5 people who believe this token and similar ones are timetables!

I would surmise that the pieces may not fit into Atwood's guidelines for timetable tokens, however when one considers Timetable L listed in Atwoods the mystery of why the Lackawanna pieces are not noted deepens! Consider the description:

OBV DENVER, LARAMIE & NORTH WESTERN RY. COMMENCEMENT
DAY MAY 2 1908

REV Compliments of Sachs-Lawlor M. & M. Co. rubber
stamps badges stencils 1543 Larimer, Denver

When one observes the phrasing of the Lackawanna piece replete with "The road of anthracite...Lackawanna RR" and "...Hoboken to and from Europe...Lackawanna terminals" it seems these pieces are more deserving of the AVA's attention than some now listed!

It is not this writers purpose to question the AVA's reasoning behind their decisions, only to bring certain facts to light regarding tokens that appear in this column, which (with the readers' help) has been accomplished. My thanks to all who have written! Thanks to Phil Mandel's taking the time to send in his "Unusual Token" we've been able to prove again that METCA members are informed and they INFORM!

UNIFACE BRASS 28MM ROUND INCUSE

Chas. Burchill (2 crossed cuesticks &
4 balls superimposed over the figure 5).

This interesting maverick should pique the curiosity of the reader! The reverse bears no die maker mark, unfortunately; but perhaps the name will be familiar to someone. The diework leads me to believe this is a 19th century token.

METCA member Terry Trantow wrote with some more interesting information about the "E.C. Atkins & Co." token from Indianapolis, Indiana. Terry has not only the featured piece but a miniature hand saw "souvenir" as well! In addition, Terry informs me of the following encased cent (unfortunately without the coin!) in his possession which reads as follows:

ATKINS ALWAYS AHEAD/THE MAN/WHO SELLS OR USES/
ATKINS SAWS WILL/ALWAYS BE HAPPY/E.C. ATKINS &
CO. INCO./INDIANAPOLIS, IND./MEMPHIS, TENN./
ATLANTA, GA./PORTLAND, ORE./MINNEAPOLIS, MINN.

I bring good luck/Keep me and never go broke/
Pat app for

ALUMINUM 35 X 47 MM HORSESHOE SHAPE

Terry says the souvenir pieces probably date from the late 1920's or early 1930's and noted that circular saw blades are still manufactured with the same mounting configuration. Bandsaws have long since replaced the circular saw though, and Terry mentions bandsaw souvenirs would be impractical! By the way, the E.C. Atkins Co. has been in business since at least the turn of the century.

Another OCT/NOV piece appearing in this column now has brought out the full story behind the token, and I'm grateful for all the correspondence recieved! This column is yours as well as mine!

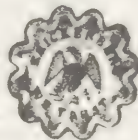

Finally, I might mention Terry Trantow's "LUMBER COMPANY TOKENS" which is now available from the author at Box 524, Ellensburg, Wash. 98926 for the nominal price of \$11 for METCA members. I've yet to order my copy, but based on the concise & informative information he sent regarding the E.C. Atkins Co. I have to think this work must be at least as interesting and a welcome addition to anyone's library. Too, one token in your collection identified can very often pay for the reference work you purchase!

BRASS 26MM 12 SCALLOPS

OBV Krickerberg/we trust (eagle center)

REV Krickerberg's/Bakery/good for/1/loaf/
bread.

An unusual maverick probably issued during the 1880's or 90's. Although somewhat worn METCA readers will notice the obverse wording to be incongruous! I have been ~~fast~~ enough to peruse tens of thousands of tokens but have never seen such an audacious play on the words of our nations' sacred motto "In God We Trust"! Hopefully a METCA reader will notify the editor if he can attribute this token.

I wish to apologise for putting in Mavericks in my last list, I did not know that was wrong. Here in Canada when a maverick is attributed it no longer is a maverick. I'm sorry I misled you, as that was my first attempt in your country I hope you will forgive me. I hope it won't happen again. Ralph.

Glyn V. Farber

Edmund R. Tylanda

The listing presented in this article is far from complete. Its purpose is to serve as good reference material and stimulate interest in New Orleans tokens. We hope to expand the list thru a supplement article or in our forthcoming Catalogue of Louisiana tokens.

At the end of this list are several tokens known to exist, but we do not have a complete descriptions. If you have any information on these tokens, or any other New Orleans token we would appreciate hearing from you. Please send descriptions and rubbings to:

ANNOUNCEMENTS

Joe Schmidt reports that member Rick Ekebrecht noticed a large amount of 39 mm uniface silver dollar holders (with 4 edge protusions for attachment) inscribed "Chicago's Largest" (Building) "First Federal Savings & Loan Assoc. Chicago 1 South Dearborn". These could be worn and then crimped over a dollar to fool a bank token collector into thinking it is a genuine, older item. Rick says Bank Token collectors should be on the lookout!

Regarding the Coeur d'Alene Coin Show March 2-4 - Mike Fritz, show chairman, will have a bourse table at the show to welcome token collectors. Saturday will probably be the best day to meet at his table.

Joe Schmidt reports that the following METCA members have already listed their state's "saloon" tokens to him (see his ad in this issue): John Mutch, Idaho; Ore Vacketta, Ill; C.R. Clark, FLA; Lloyd Wagaman, Ind; and R.W. Colbert, GA. Seems that all state token catalogers who've written books or papers will be gracious enough to let me peruse them for saloon token listings - CA, CO, NE, MI and other places. ALL PROFITS, if any, from this work will be donated to exonomia organizations, so to further education and encourage works by members.

Dick Grinolds, 627 Polk St. NE, Minneapolis, MN 55413 has List EX-6 (March 1979) available - a fixed price list of 630 exnumia items.

Johnson & Jensen, 8 Briar Ridge Road, PO Box 1085, Danbury, CT 06810 has a 11 page general price list available (commemorative and fine art medals at fixed prices).

Montana collector, Ford Knight, had another hospital stay recently - still trying to rid the poison out of his system. If you haven't heard from him lately, you now know why.

Member John Calhoun from Post Falls, Idaho has been giving talks (on tokens) to various senior citizen groups in five different counties of Washington and Idaho. John reports that the Coeur d'Alene show was real successful for the token collectors who attended.

Glad to report that METCA Monitor Editor, Al Zaika, is fully recovered from his recent mishap. Al is bourse chairman for the Third Annual Token and Medal Show sponsored by the Delaware Valley Vecturist Association to be held May 12 - 13 at the Philadelphia Sheraton Hotel. I am going to send a box of back issues of Trade Token Topics for the collectors back there and will send Al two dozen free page ad coupons for drawings for METCA members attending the show. We will have to get some April issues to the show, too.

Hats off to member Len Hoskins, one of the Nevada cataloguers, for the supplemental list of Nevada mavericks he is sharing with the membership in this issue.

I spoke with Montana cataloguer, George Gould, and he reports that the catalog is in the proof stages at this moment.

Trust all of you are cooperating with Illinois exonumists, George Owen and Joe Schmidt, in listing the saloon tokens from your area. Page 28 of the March 7, 1979 Coin World gives a feature on their preparation of this comprehensive saloon catalog. Their other projects are discussed at length, too. METCA will present their Business, Names and Merchants on Counterstamped Coins in one of the summer issues.

Pages 12 and 76 of the March 14, 1979 Coin World features articles by Johnson and Jensen on the closing out of the 1940-49 Society of Medallist issues and the emergence of collecting trends in the field of art medal.

Page 67 of the 14 Mar 1979 CW features the highlights of the Exonumia Sale conducted by Paul Koppenhaver at the Feb. 3rd Long Beach Show.

Speaking of saloon tokens - The book, Saloons of the American West, by Robert L. Brown is a delightful illustrated chronicle of saloons of the west. There are lots of swell photos of saloons and tokens, too. Many of the Colorado collectors are personal friends of Mr. Brown. Member Larry Rasmussen is selling this book - see the ad in one of the past issues.

CATC Report: 79 Dues - \$2.00. Rather than glean the highlights of the March Issue I would refer you to a later page where you will find the breakdown of the over 10,000 tokens to be listed in the Alpert/Smith Amusement Token Catalogue.

Former Oregon collector Jim Millard has turned over to Terry Trantow all the information he has on Oregon tokens which included the ten volumes of rubbings, the approximate 2,000 listings which a number of you had. Jim hopes each of you will help gather more information for Terry to make the Oregon catalogue one of the most complete in the Northwest.

Jim Millard, 238 Hardin Dr., Selma, AL 36701 is trying to put together a town listing of locations that used GOOD FORS in the state of Alabama. Jim has already gathered (with the help of local sources) 175 locations. He now needs a rubbing or listing to make it more bona fide.

Paul Cunningham, Box 1, Tecumseh, MI 49286 (517) - 423 - 4053 has a new Exonumia Auction 29 with a mailing deadline of March 31, 1979. The auction features an outstanding listing of over 1,064 items with special emphasis on merchant tokens and military tokens. Retail listings of better and common transportation tokens accompany the sale as well as an extensive selection of exonumia books for sale.

This is the last issue of Trade Token Topics you will receive this year unless your dues of \$7.50 are not paid. I will note in red ink on your envelope if your 1979 dues have not been paid. Mail to 752 North 74th, Seattle, WA 98103. Thank you.

Larry Bender, 111 North Jordan Ave., Miles City, Montana has expanded his collecting interests to MONTANA, NORTH DAKOTA and LUMBER and COAL.

MAVERICK LISTING ANALYSIS BY LEE NOTT, MAVERICK EDITOR OF METCA:

Since I have been the editor of this section over 300 mavericks have been listed. Over 100 have been attributed, for a percentage close to 35%. Over the past seven months we have listed 87 tokens, with 30 identifications by the membership. But we have several listings going back to April 1977 that are still not identified. Will collectors from Arizona, New Mexico, Nevada, Kansas, Wyoming, and Montana please review past issues and help identify any that might be from their states. I'm sure we also have some from California, Oklahoma and Texas that have not been attributed, but collectors in those states have been very helpful. This column depends upon the help of the membership!

N.R. MACK, P.O. BOX 395, GOOSE CREEK, SC 29445 has a WOODEN MONEY MAIL BID SALE THAT CLOSSES 31 MARCH, 1979. WRITE FOR INFO. ON MAY'S SALE.

Joe Studebaker, 2614 Legare St., Beaufort, SC 29902 reports that he is well and hasn't moved (as TAMS reported he had moved and left no forwarding address).

Future articles appearing in the summer issues of TTT will include: "The Media of Exchange used by our Penal Institutions" by JERRY ZARA and a seven page "Second Supplemental Listing of Missouri Encased Cents by Michael and Sandra Pfefferkorn. Gary Ascher has authored an article on "Cleaning Tokens" that will also appear shortly.

Stephen Alpert, Editor of Token Topics of the California Association of Token Collectors, reports that Loose Change Magazine is sponsoring a large antique and collectible show this October (It was scheduled in Reno, however, Steve just informed me that it is being moved to California due to a decision by the Nevada State Gaming Commission that in order to sell antique machine you need to obtain a gaming license). Steve reports that he will be a seller there, and is trying to spread the word among token collectors and dealers in efforts to make this show feature tokens and exonomia. The Fun Fair will stress antique coin-operated machines, but antiques and collectibles of all kinds will also be sold. Stephen thinks it would be exciting if most of the western states token collectors could congregate at this show. Details will follow now that the show is to be moved - Reno would have been ideal as it was centrally located. Intended collectors or dealers should write: Loose Change Fun Fair, 21176 South Alameda St., Long Beach, California 90810.

For those of you interested in lumber tokens and history, you should visit the Georgia-Pacific Historical museum in Portland, Oregon. Frank Colburn is director of the museum and has a classified ad in this issue. Terry Trantow, lumber cataloguer, thinks a visit to the museum is very worthwhile. Terry informed me that the catalog is in his hands (March 24th) and will be mailed out shortly.

CATC REPORT ON THE AMUSEMENT CATALOG TO BE RELEASED IN 1979

AMUSEMENT TOKEN CATALOGUE MANUSCRIPT COMPLETED

The comprehensive catalogue of amusement tokens by CATC members Steve Alpert and Ken Smith is expected to be published before this summer. The book will individually list over 10,000 amusement tokens, with over 500 tokens pictured. The authors recently put the final touches on the lengthy and informative introductory section of the book, and they are greatly satisfied with the contents of the book and equally enthusiastic about the future of amusement token collecting. The following list shows the breakdown of the over 10,000 tokens by state and type.

PROGRESS REPORT

The ongoing project to catalog Georgia's Trade Tokens remains in full swing and altho the catalog is no where near completion, I am happy to report that a significant number of new listings were incorporated into the catalog over the past year. Many of the new listings were gleemed from various ads in METCA and elsewhere, while others were gathered from mail bid and auction catalogs. A good number of reports from individuals and collectors were also received during the year and helped greatly to enlarge the overall scope of the work, and I wish to express a note of sincere appreciation to each contributor for thier welcome contribution to the undertaking. I plan to continue the project and welcome any further reports from those, who for one reason or another have forgot to send in listings of thier Georgia holdings.

Giving credit where credit is due my February METCA ad appealing for help from the membership regarding "SALOON TOKENS OF AMERICA" brought 39 letters, all had a rubbing of at least 2 saloon tokens but the average person listed over a dozen! It's interesting to note that the March 7th Coin World article brought a response of 27 letters. I feel obligated to thank the people that wrote and will list only a few of them herein as the entire list would be too much of an encumbrance!

Personal thanks from George Owen and myself to the following people who responded to our appeal in the February METCA. More will be acknowledged at a later time because there are too many to list all at once! Thanks, George & Joe. Jack Smith, Len Hoskins, John Schilling, Gary Pipher, Herman Aqua, W.E.Nickell, C.R.Clark, Lou Crawford (who sent a list while at college, studying and getting 4 or 5 hours sleep a night!), Sam Michael, Lee Nott, Jack Harvil, Jerry Adams, Greg Brunk, Mike Pfefferkorn, J.E.Everingham, Grover Davis, R.W.Colbert and Chuck Littlefield!

19th Century Illinois Exonomia - still gathering photos, maps, engravings, info. and tokens. Should publish by 1982 when the original TAMS works 450 items get up to 1,000.

Definitive Price Guide To Hard Times Tokens. This book will be a compilation of all FR's 1970 - 1980. All prices done and this work 80% complete. Just waiting until 1981 to publish it. They way it will be 1970 - 1980 - a decade of prices realized.

Saloon Tokens of America. Will publish in late 1979, non-profit. Still need a few states - Alabama, Carolinas and others. Need everyone's mavericks for that section.

THE MYSTERY OF THE MAVERICK

By Bill Clapper, METCA 25

Apparently my last article was well accepted in that I received many nice letters and information. These are much appreciated.

While my articles are not meant to be a place for the indentification of these mavericks it will happen as it did in two instances. One being the "Opewell Tunnel" token which turned out to be an error token and should have read, "Hopewell Tunnel" (Arizona).

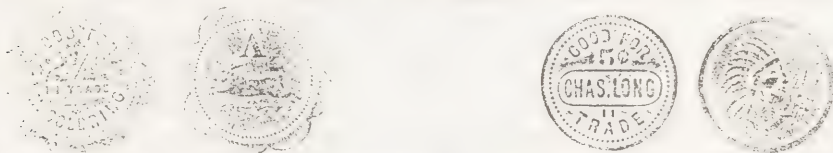

My articles are intended to create an interest in the wide range of maverick collecting. The categories in collecting trade tokens are unlimited, but even more so if you include mavericks. Here is a field of collecting that has no State boundaries. You can collect all over including foreign mavericks. Almost every collector has a few nice old mavericks that he would trade for other tokens he can use.

If a collector should decide to collect animal tokens, for example, and collects only those in his state with city and state, then he has very much limited his collecting. But, if he includes all animal tokens and includes all mavericks, then he has a collection that will keep him busy for his lifetime.

As I traveled the country I picked up all the nice old mavericks that I could find and included all categories. I am never limited to what I can trade for.

Following are two tokens that are of great interest to me. One is my favorite animal token. It was issued by N. GOLDRING for $2\frac{1}{2}\phi$ in trade. The reverse is the mystery. What does "A" rabbit stand for? Most of us know that a token "Good For A Smile" is good for a small bottle of whiskey, about $2\frac{1}{2}$ ounces. But, what would "A" rabbit stand for? Why not just a rabbit? Why the "A"?

I also like old portrait tokens. Here is one with the bust of an Indian issued by Chas. Long. Many collectors collect trade tokens with busts of famous people, buildings, etc.

One can collect old Hotel or House tokens such as the two listed below. These old House tokens are of great interest to me because, like the Saloon, they dotted our early frontier towns. They were generally folksy places to stay and most of them were very fashionable. There are several rare old tokens from the American House located in different cities, such as Denver. I don't know where this American House was located. This one was issued by Wm. J. Bartels, Prop., and good for One 5¢ drink. The old HECKLA HOUSE was issued by SYRIAC LANTOT and is of special interest to me because it is also a Chas. Pick & Co. token of Chicago. I picked this token up in Idaho a number of years ago.

Another type of maverick collecting can be in the field of those tokens which can be more easily identified because they have full names or good addresses. I generally do not pick up tokens which read, "Jack's Place" or "Ben's Tavern". Dozens of communities had such tokens and they are hard to place. I also do not bother with initialled tokens, such as, "I.B. or J.S." Again, you have tokens that are hard to place. Not impossible, but hard. Too, there are better mavericks around, so why bother with those that will give you trouble in the future.

Following are some examples of those tokens that are more easily identified:

The Hippodrome is a token that was issued by Moise, S.F. (San Francisco) so we know that it could be California, Nevada, Arizona or maybe Oregon. Too, there is no Hippodrome listed in any of the California catalogues. There is where the mystery is. Where is it from?

Next is the nice old uniface Costello & Hennessey, First and Last Chance Bar. It was made by the L.A. Rubber Stamp Co. of Los Angeles. So, it too, could be a California token which is not listed in any of the catalogues.

Then there is the old Val Grimm Juniata Bar from Grand and Juniata streets. I have no idea where it is from, but it is a beautiful old token. I like it because it looks rare and old and it may be unique? That is what holds my interest in such old maverick tokens.

Now, I'd like to end this article this month with a list of old and unusual Social Club, Society, Fraternal, Labor Temple, etc. tokens because this is another interesting collecting area. I think that you will find them interesting. I will list them, however I believe tokens like the Oasis Social Club and the Behm & Jaros Labor Temple to be out and out Saloons. (1) Behm & Jaros Labor Temple (2) Oasis Social Club, H.R. Wiley, Prop. (Believed to be Oregon or Washington) (3) Club Social Hispano Americano (believed to be Arizona) (4) Hios Social Club (5) Deutscher Club, Member Bar Check (6) Circolo Fratelanza (believed to be Illinois) (7) Societe Carnot. One could get lost in just such a collection because, again, the field is unlimited. Happy collecting until next month.

I would appreciate the help of the METCA members in identifying the location for Eagles (F.O.E.) chapter #1171. I have a token (see rub) with CAROLIN (and there is another variety w/ "CAROLINA") AERIE-- so I believe it to be either North or South Carolina token. Naturally, I am hoping it's North, but I would be most grateful for confirmation.

The token listed below has been appearing in quite a number of mail bid sales for the past year and after obtaining a specimen, I was convinced that it was a modern made fantasy. After writing to a few government agencies in Maine, I received the following letter ;

ALLAN R. JOHNSON
BOX 128
EAST HOLDEN, MAINE 04429

November 23, 1978

Dear Mr. Zeike,

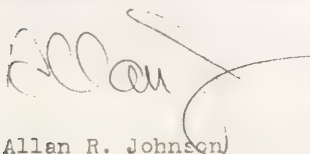

Your letter forwarded from Hancock County Court House...

The Johnson Lumber Co. did exist in the 1920's up thru 1940's. I am presently in the saw mill business (not full time).

The tokens were issued about 5 years ago and were intended as samples for my custom medal and token business. My family did operate a store for the woodsmen but tokens or a formal type of script were not in use.

Thank you for your interest and hope the above information is of help.

Regards,

Allan R. Johnson

No deceit was intended by Mr. Johnson in the free distribution of this token, but the danger arises from many of the recipients. One dealer listed this piece as a very rare Maine, lumber token, with a price of \$12.00 on it. As it has been stated over the years, "Let The Buyer Beware".

Company/Johnson/Lumber Co./Dedham,/Maine/Store.
Rev. Good For/1c/In Trade. Brass, 17mm.

METCA MONITOR

This fake V.K.V. piece has also been making the rounds for the past few years.

Convention of The Order/May 11, 1907/Ku Klux Klan/Bristol, Tenn.
Uniface, brass, 39mm.

Antique shows and flea markets are a common source of this fake and it usually comes with a fantastic history. Fishermen have long held the reputation of being the "greatest liars", but I'm firmly convinced that some antique and flea market dealers are more deserving of that title.

In one of my previous columns, I requested our members to report any known fakes or suspected tokens to me. The response has been very disappointing, with a total of three letters received from our large membership. This column needs your cooperation in order to survive, so please report any tokens that are suspect. A complete description and rubbing, if possible, will be appreciated, or you can send the token or and I'll photograph it and return it.

Additional Nevada Mavericks Listed
by Len Hoskins

Since the Nevada Maverick token list was completed in early 1977, a few additional mavericks have been attributed to Nevada towns. As a service to collectors who bought the list and wish to keep it up to date, this group should be added. Again, as with the original list, none can be guaranteed. However, there is strong evidence that these are correctly attributed.

Just an update on U.L.A.T.C.O. News:

The Utah La-Vecturist and Token Collectors Organization (U.L.A.T.C.O.) were participants in the recent Spring and Garden show held at the Salt Palace in Salt Lake City, Utah, during March 1st through 4th. This show, whilst primarily a flower show, had a section relating to hobbies, and, as we had exhibited tokens and medals at it in 1978, we were asked for a repeat performance.

We had some twenty-five cases, loaned courtesy of the Utah Numismatic Society, that were filled with tokens, coins, medals, dog tags, space items, and transportation items. The booth was manned by METCA members Blaine Simons, David Freed, and this author, and further ULATCO members represented the ANA and TAMS. Logo's referring to these organizations were printed and placed in prominent positions. A wooden nickle was produced for a free membership, and 1,000 of these went in the first two days. Contacts were made and potential new members were solicited for U.L.A.T.C.O.

Needless to say, the show was a great success with all members winning ribbons in appreciation for their displays, and U.L.A.T.C.O. as a group won a special award of distinction.

ITS in the bag! The IOWA TOKEN SOCIETY invites your membership inquiries. Annual dues are \$3.00. ITS, 614 So. Johnson St., Iowa City, IA 52240.

Yes, I'm about to resurrect the idea of forming an Iowa Token Society. I gave it some thought in Florida in 1977, and asked some prominent Iowa collectors their opinion on it. Most who replied thought that a broader based "Central States" Token Society would be more feasible. I think that an ITS can serve enough collectors and provide some in-depth nitty-gritty information on Iowa tokens. The quarterly journal, called The General Store, will be mostly short articles, geared usually to the research side, i.e., asking for assistance on problemetical tokens, and so forth. Large articles will usually be pushed to larger publications, including TAMS, METCA, but especially to the Iowa Numismatic Association, which is a place for such items.

I hope to get the first issue of GS out shortly, with membership applications.
Patrick D. Hogan 614 So. Johnson St. Iowa City, Iowa 52240.

If this issue is late (which it is) you can blame the one evening I lost having dinner and talk with Aksel Hansen, Minnesota collector, and Ray Mansfield and W.E. Nickell, Alaska collectors. We all got together one evening for a nice steak dinner and a chat and trading session at my place. It was a warm Seattle evening and it was sure swell visiting with the fellows. I had met Nick and Ray a few times before, however, it was my first visit with Aksel whom I found to be a very delightful person (with some outstanding trading material). Needless to say, the evening flew by too fast; it always does when you are around gracious people.

Johnson and Jensen are conducting a Worldwide and Ezposition Medal Auction on May 20th, 1979 at 3 PM at the New York Sheraton Hotel - Gotham Suite. The 610 lot auction features some truly outstanding material. Send for the auction catalog to Johnson and Jensen, 8 Briar Ridge Road, P.O. Box 1085, Danbury, CT 06810. Tel. (203) 744 - 0851. Mail bids should be directed to the P.O. Box not at the Sheraton Hotel!

Leslie Hill of the Canadian Numismatic Research Society has directed my attention to the new booklet entitled, "Attributed Canadian Maverick Tokens". The booklet contains the necessary, useful bit of information for anyone attempting to attribute mavericks of Canada. Over 2,200 mavericks are attributed. The book sells for \$3.50 postpaid. Cecil Tannahill's "Attributed Canadian Maverick Tokens" should be a very useful guide for all token collectors, and at a nominal cost for all the labor expended in the identification of mavericks attributed to Canadian localities.

Thanks to those who sent in monetary donations and token offerings for the benefit of Chriss. The following six tokens were sent in by a fellow collector with all proceeds going to help Chriss.

Please get all mail bid sales, etc for the May issue in as soon as possible as I am going to try and close the amount of time it takes to get the next issue out. The next issue will contain a minimum of four pages of the roster of members.

"The Media of Exchange used by our Penal Institutions"

by JERRY ZARA

Collecting all forms of the monetary exchange used by our correctional institutions can be a very interesting form of exonomia. I have been fortunate enough to have been able to purchase single items as well as collections which have taken years to assemble.

While assembling my collection I've discovered that there are many forms of the monetary exchange being used other than tokens alone. The very first tokens that attracted my attention were the "One" and "Five" pieces from Sing-Sing Penitentiary, (Ossining, N.Y.).

Prison money as such is quickly disappearing from the United States Penal System. This is due chiefly to modern bookkeeping machines and better accounting systems available to us today.

Prison money is rather difficult to acquire since their mintages have been relatively small and very few pieces seem to have escaped from behind prison walls.

In the 1972 TAMS (Token and Medal Society), there were only nine prison collectors listed; which had grown to twenty-three by 1977. Only nine of the twenty-three however were active in their research. Today there are of course many more individuals who are collecting prison money, and related exonomia, making them even harder to acquire.

While trying to assemble all available information on the prison exchange system, I found that information in itself was very difficult to acquire. To date there has been only one book published, the "Media of Exchange used in State and Federal Penitentiaries"; by Jack Burns, in 1960 while working for the Carnegie Museum, Pittsburgh, Penna. This Booklet is outdated and obsolete, but is a good starter for someone who may want to get some background information. In the future, I hope not only to update this book, but to catalog all of the monetary systems that have been used by our institutions from the beginning.

The ANA (American Numismatic Association) Library, had only three small paragraphs available from volumes dated 1916 and 1917, of their "Numismatist", their monthly journal. These articles included a description of the tokens used at Nevada and Sing-Sing, and script which was used at Sing-Sing.

Other than the above listed material I was very much on my own corresponding with whomever could possibly be of assistance. Prison Officials have been contacted, with little or no response at all. I must add however, that the few that have helped, have been of great assistance.

To date my collection consists of over 200 different tokens and punch cards, with an additional several hundred tickets. I also have managed to collect over sixty early postcards, which depict prison scenes, both interior as well as exterior. My prison exonomia consists of buttons; both inmate and officers, weapons; which were confiscated from inmates, drawings; done by inmates, badges; patches; medals and other insignia items. I have duplicates of several hundred tokens and pieces of script, which I offer in exchange for items that I do not have. A very good way of building ones own collection.

I've acquired most of the items in my collection one at a time. There were some cases where I was able to buy a complete collection, adding very nicely to what I've already managed to assemble. One has to really dig into piles to come up with a prison token. The best way, is to correspond with all that is possible, enabling many to do the research with you. Of course, at the same time you are looking for items of their interest, so that you will have something to trade for, so all are really helping each other.

Many of the tokens I have available are of various sizes, shapes, denominations, compositions and design. Many being struck in either aluminum, copper-nickel, copper, brass, bronze, fiber or plastic. Their sizes may vary anywhere from 16-40mm, while their shapes can be square, round, scalloped or octagon. Some may even have a design which can be a small center hole, a 5 or 6 star cut-out, a shamrock or letter of the alphabet. You may even find a few with a counter-stamp. The denominations may vary from one-cent to as high as five-dollars, while others may have no monetary value at all, which are used for specific purposes.

Coupons are contained in books generally in the amounts of \$1.00 - \$ 30.00 per booklet. The coupons themselves are found in amounts of one-cent through \$1.00. The coupons are torn from the book by the commissary clerk at the time of purchase, and not the inmate. Generally loose tickets are invalid.

Punch cards may vary in size, color, amount and shape. Each card contains a given amount which is punched out in the amount of the purchase. Some prisons may also utilize special tickets, sales slips or any other form of paper script.

Tokens have been used from approximately the turn of the century, and some may still be in use today. There are no specific dates of use, as some prisons used tokens for many years, while others have only experimented with them for a very short period of time.

Prior to 1960, many prisons used tokens, chips, coupons or script of some sort. Today the system most utilized is a paper transaction known as the "Account and Transfer" system, which can be compared to that of our local bank. An inmates account will be credited for a specific amount each period, depending on the institution, with a withdrawal slip being completed by the clerk in the commissary for each sale an inmate makes. This withdrawal or sales slip is then forwarded to the accounting department where the amount will be deducted from the inmates account. By utilizing the "Account and Transfer" system, theft of prison money is prevented and gambling kept to a minimum.

Most prisons today have a canteen system of one kind or another. There are a few prisons that have no facilities at all while others are very elaborate. The amount an inmate can spend is regulated on a monthly basis. Of course, the inmate must have funds in his account, as there are no charges allowed.

Some prisons will allow an inmate to receive a very small amount of "Free Money" (U.S. Currency), from the outside. There are also some prisons which allow an inmate to spend only that amount that has been earned from within the prison walls.

While it has been mentioned that most of our institutions today are utilizing the modern accounting and transfer system, I will provide you with some special information from the past, which I believe you will find very interesting.

The State of Illinois has reported the use of special tickets issued for the purchase of ice cream, milk, and pie. These tickets are limited to seven milk, two ice cream, and one pie ticket per week. There are exceptions, when a holiday will fall in a given week. These tickets are filled out by the inmate, delivered to the commissary clerk the day prior to the requested delivery date. The requested items are delivered to the cellhouse runner and distributed to each inmate by the runner the day of requested delivery.

Some tokens were distributed for a specific purpose, such as those of the Anamosa Men's Reformatory, Anamosa, Iowa. There is a ten-cent token strictly for ice cream; a twenty cent token for soda; and a thirty-five and fifty-cent token for the movies. Each token is so marked.

While most tokens were in payment for work received, the Mississippi State Penitentiary had some that were issued for blood, called "Brozines". The inmates voluntarily gave plasma

and in return would receive \$.40 in brozines; \$1.00 put into their savings account; and \$1.50 would be put into the Vocational School Fund. This is the only source of income for the supplies and materials used by the eighteen departments of the Vocational School, located at the penitentiary for the inmates. It is also the only source of income for a number of the inmates.

There are also tokens that visitors must use for transportation, to and from the institutions. There are some issued for newspapers and magazines only.

Some tokens were issued for a very short period of time for experimental use, and quickly withdrawn. While others were manufactured and never issued, such as those of "Deer Lodge" of Montana, where 100 pieces were struck for a trial order. While the State of Utah issued their tokens, but withdrew them within the year.

At Nevada's State Prison, as on the outside in Las Vegas and Reno, gambling was legal up until 1965. The gambling laws however were controlled by the prison. The inmates used brass tokens in the denominations of one-cent through five-dollars. The only games allowed were cards; stud or draw poker; low-ball, or "21". A dealer (inmate) purchased a table for seventy-five cents a week, and split his take with the prison. The prison in turn used the money to purchase items for the recreation fund. Players were limited to a withdrawal of brass tokens up to the amount of \$20.00 a week, from their personal accounts.

Nevada's tokens are reported as being in use the longest, probably prior to 1900. They were also minted as late as 1962, and came in round and octagon shapes. It has been reported that there were over 40 different varieties during this period. The brass tokens were retired when script came into use in 1967. All tokens withdrawn from the inmates were offered to the public, at a special sale price. All money received from the sale of these tokens was used for the recreational fund.

Sing-Sing Prison (Ossing, N.Y.) has issued paper script in the form of \$1.00, \$5.00 and \$10.00 notes, besides its tokens of 1, 5, 10, 25 and 50 denominations. Each carried the monogram of "MFL" (Mutual Welfare League). The words "Cents" or "Dollars" do not appear on either their tokens or notes. At Sing-Sing, inmates were expected to pay for everything including cell rent, and meals. In 1915, cell rent ranged from \$1.00-1.50 a week, depending on tier and location. wages at that time were \$1.00 per day.

page 5:

Recently there was a brass token released for use in the Coca-Cola beverage machines. These tokens are used by inmates at the Maximum Security Penitentiary at Waupun, Wisconsin, for coke machines located in the various recreation areas. These specially set up machines will not accept cash, but will dispense a paper cup of coke when one of these tokens are inserted.

The State of Kansas at one time issued punch cards, which were different from other States because they required a thumb print instead of just an inmates name and identification. These cards like others were issued for one inmates use only, and are not transferable.

The State of Hawaii issued forms which were used to order specific items, such as; medical supplies, shoes, newspapers, and fruit along with the regular commissary slips.

Most States are represented in one form or another and only by searching and many hours of correspondence will one ever really know how much is really involved in putting such a collection together. I hope to fulfill my curiosity, so that I can publish a catalog which will be a reference for other individuals who may be interested in the collecting of the media of exchange of our penal institutions.

As you can see, the study of prison money can be very interesting and has had very little publicity. I have displayed and spoken about my collection many times before various groups, because I really enjoy the topic and am willing to share it among my fellow collectors.

Therefore, if there is a reader who is willing to pass along or assist me in any way, either with information or samples of the money used in our penal institutions, their help will be greatly appreciated and surely encouraged. Please send all correspondence to: JERRY ZARA, P.O. BOX 248, BRICK, NEW JERSEY.,

I hope you have enjoyed this article and that I have been able to put a spark of interest into this special area of numismatics, the study of the media of exchange of our penal institutions.

THE MYSTERY OF THE MAVERICK

By Bill Clapper, METCA 25

One of the collectors wrote and asked if I could write an article on old House and Hotel mavericks. He was most interested in those in my last article.

Collecting nice old House and Hotel tokens can be most interesting. I have found that such nice old mavericks are about as hard to come by as are maverick saloon tokens. I have about an equal amount.

The areas of collecting nice old mavericks are unlimited and the novice collector can collect rare old mavericks where he might otherwise be limited, to a degree, to common material from his state or collecting area.

I find that I very much enjoy going through my books of old mavericks and daydreaming about the various and interesting old tokens that I have. I think that the mystery of these mavericks is what makes this type of collecting so interesting. Wondering what old ghost town the token might be from and what an interesting story it could tell if it could talk. Crazy, maybe?

But, if it is crazy, then I'm not alone. All one has to do is check Dr. Benjamin P. Wright's book, American Business Tokens and note the great number of mavericks that he listed. I'm sure that he listed those mavericks with as much love and interest as he did the identified tokens. He, as all of us should, considered them an important part of his collection.

Following is a grouping of old House and Hotel tokens:

Being that my impressions are not the greatest I will describe the obverse of the House and Hotel tokens: (1) Hoffman House Bar, J.J.W. (2) Park House Bar (3) Fine's Hotel Bar, River & Randolph (4) Noble Hotel, J.R. Chambers, Mgr. (5) Calumet Hotel (6) Norden Hotel (7) Hotel Sherman (8) Colorado Hotel, McKim Bros (9) F. H. Ahlborn, Half Way House, Southern Ave. (10) Milwaukee House (11) West End Hotel, A. Christ, Prop. This token probably should not have been listed here because of the very poor impression, however it is unusual in that it has a very shallow incuse and because the one side has a 5 and the other side a 3.

The Sherman Hotel token was made by the Salt Lake Stamp Co. and is no doubt a western state token as are several of those listed. This token and the Milwaukee House token were obtained by me some twelve years ago from an old coin dealer's collection. Both are almost mint.

The old Colorado Hotel, McKim Bros token is one of those nice old mavericks that really can get my dreaming machine operating. I found this token in Colorado and I have often wondered from what town it came and whether that town is now one of the old ghost towns.

I might mention at this point that where a token was found does not necessarily mean that it is from the town or state that it was found in, especially if it is one of the western states. Those who are familiar with the comings and goings of the old miners know that they moved from place to place as the new strikes were found. Tokens do, and did travel so that the Colorado Hotel token could be from Arizona, Montana or Alaska. I have plucked many a rare Alaska, Montana, Arizona, etc. token from my maverick collection as someone identified them.

For those who may remain hesitant about collecting mavericks there is a safer way of collecting mavericks and that is to collect the very unusual ones or those that have a business name plus the name or names of the owner's of the business. The more unusual the owner's name the more chance of identification at some time in the future.

Again, I will list the obverses: (1) Restauration, H. J. Pohl (2) J. W. Borba, T, SEB. (3) Kentucky Bar (4) The Lobby, Devine & Beecher (5) Black & Ward, The Forum (6) Post Exchange Restaurant, Thos. Nical, Prop.

I listed each of these for a purpose. First, two unusual tokens. What, for example, was RESTAURATION? This is a very old token. Next, where was SEB.? If that is a location??? Second, Kentucky Bar because it was made by L.A. (Los Angeles) Rubber Stamp Co. putting it in the west someplace. Third, two tokens with business name and two owner names, and last, a business name with an unusual owner's name.

Next month I'll write an article and list some very unusual tokens unless some collector writes and asks for some particular article.

WYOMING TRADE TOKENS

by

Leon R. Corpuz, Jr.

P.O. Box 374

Sinclair, WY 82334

In 1890, Wyoming became the forty-fourth State to enter statehood. Always having been a sparsely populated State, so were the merchants and their tokens. During the early part of statehood, most of the population and merchants were located in the southern part of the State, along the route of the Union Pacific Railroad. Six towns stretched across the State provided major fueling and watering stops for the U.P. trains. The towns included: Cheyenne, Laramie, Rawlins, Rock Springs, Green River and Evanston. These towns were responsible for many of the early tokens from Wyoming. To provide fuel for their steam locomotives, the U.P. developed their own coal mines. From these mines sprang the towns of: Carbon, Hanna, Cumberland, Superior, Diamondville, Kemmerer, and a number of other smaller communities, some of which are ghost towns today. Directories indicate that these towns had a proportionally high ratio of saloons in comparison to population. For example, in 1914, Diamondville had a population of less than 700, but had thirteen saloons. Although it is apparent that there were many saloons in Wyoming, tokens with the wording "saloon" are rather scarce. This is also true for other States in the mountain region.

The development of agriculture and the discovery of oil led to the rapid growth of several smaller towns in the northern and central part of the State in the twenties and thirties. Like the railroaders and miners, the oil field workers would spend their hard earned wages on booze, cards and women. Towns that felt this impact, included: Casper, Sheridan, Cody, Riverton, Lander, Thermopolis, Worland, Greybull, Lusk, Basin and Glenrock. During the twenties there was a remarkable increase of billiard parlors across Wyoming, undoubtedly it provided much of the recreation, particularly during the long, cold winter months.

Tokens from the west central and the northeast corner of the State seem to be the most difficult to find. Some of these towns would include: Pinedale, Big Piney, Jackson, Dubois, Afton, Hulett, Upton, Sundance, Moorcroft and Newcastle.

To help my fellow collectors in trading and buying Wyoming tokens, below is a listing of some common tokens. There are many others, but these are the ones that probably appear more frequent. The most common tokens from Wyoming are the Frontier Club pieces from Worland, with the Smoke House tokens from Greybull and Thermopolis ranking a close second.

"SALOON TOKENS OF AMERICA"

A progress report-

METCA members response has been tremendous and Joe Schmidt & I are most grateful! Over 80 letters have been received and hundreds of additional listings added to our index card file. The completed work should feature 3 sections totaling over 2,000 examples of tokens that have "SALOON" in the inscription. First section will list issues, towns and states alphabetically with catalog numbers. Section two will be a compilation of all mavericks from the first section so that collectors will be able to find attributed mavericks with ease. The third and final section will devote itself entirely to unattributed mavericks. All excess profits will benefit unfunded exonomia organizations.

We will wait until the 1st of July or August to collect more listings then type the final manuscript for publication. We hope to hear from more of you with saloon token listings or maverick listings - one or a hundred will benefit collectors that much more!

Many have helped, but we need help in the form of more listings if there are any more from these states: ARIZONA, NEW MEXICO, NEVADA, WASHINGTON, OHIO, PENNSYLVANIA & the CAROLINAS

METCA token catalogers we've wrote (including a self addressed stamped envelope) & have heard nothing from - please let us know if our letter wasn't received, a list is not ready yet, or are too busy to help or just used the stamp from the envelope! we will keep METCA members aware of everyone's status. WHITE METAL 31MM ROUND

OBV Sea's Millinery Dept./ (Eagle center)/1885.

REV Sea's/Millinery/Dept./souvenir/of the opening/
20th/season

Sea & Co. was one of Chicago's more profitable "general" stores abundant after the Civil War. Founded in 1865, the company enjoyed prosperity for nearly 3 decades. Dealing in "fancy goods, millinery & notions" the 1882 R.G. Dun noted this concern as having over \$16,000.00 capital. This columnist has seen very few millinery tokens and this attractive token is a fine representative! Also an early Illinois unlisted storecard, this piece is illustrated here for the time.

BRASS 25MM ROUND

OBV The Hub/Clothier/J.D.Green/Greenup,/Ill.

REV Good for one/ride/J.D.Green/Greenup,/Ill.

Although I usually balk at illustrating very rare tokens that are almost unobtainable, this piece is one exception! Already assigned Illinois 375-C by the American Numismatic Association and given their highest catalog value for the next Atwood supplement, it is also a legitimate storecard! Only 3 are known, although this column might well bring evidence of a few more. Exonumists can call this a dual card, being both a transportation and storecard token. Mr. Green ran a livery service according to the 1893 Illinois Polk directory and of course operated what may have been a clothing and/or tailoring establishment as well. Actually, the reader can decide which is the obverse and reverse of this piece depending on his collecting interest! I surmise that the "Hub Clothier" side should be the obverse as the other side technically is a "good for" type but our friends at the ANA may disagree. At any rate, I thought METCA readers might want to learn of this piece before it will be illustrated anywhere else!

Terry Trantow, Lumber Cataloguer, PO Box 524, Ellensburg, WA 98926 has become interested in branding hammer collecting. At present he has approx. 15 names of parties interested in hammer collecting, mostly Wisc., some Washington. All parties share a common interest - forest history. Some hammer collectors are interested in tokens, too. Many are able to expand on the history of particular companies which used tokens and/or hammers. Thinking about the formation of hammer collectors, goals would be: to exchange information on the history of lumber companies; relate the various state laws regarding hammer registration; and trade information on hammers and tokens/scrip of the various companies. Terry has already obtained information on five additional companies which used scrip or tokens from one hammer collector. Also three museums are interested in a hammer organization. The organization will benefit forest history more than token collecting, however, there may be some interest to collectors nevertheless.

On a sad note, Ford Knight, reports our good friend and active Montana collector, Jess Wilson, 211 9th Ave. No., Billings, MT 59101 passed away after a long illness, the first of May in a Billings hospital. Ford reports that Jess's daughter called him and requested that he inform all token collectors that his collection has been given to a member of the family and will not be for sale or trade. As many collectors know about his large collection, the daughter wanted to relieve her mother of answering inquiries about the disposition of the collection. If I recall, Jess may well be one of METCA's most active senior members. Jess, I believe, was nearing his mid eighties, however, he traded and pursued the elusive token with youthful fervor. His sincere interest in tokens at a age when most others cease such activities should serve as a legacy to the membership. Our hearts are with the family in their period of bereavement.

Montana collector, Jim Van Noy has become a Washington state resident having recently moved to 118 9th Street NW, Puyallup, WA 98371. Welcome to the state of Washington, Jim, trust many of us will be able to meet you at some of the local coin shows.

Jim Millard, 238 Hardin Dr., Selma, AL 36701 reports that after his help notice in TTT that the Alabama Town List has grown from 175 to 263. Jim requests the membership to report Alabama towns and locations to him as he is preparing a list of known towns in METCA at a later date. Jim was the force behind the town listing of Oregon (and is cooperating with Terry Trantow on the Oregon catalog), and it looks like he will become a tour de force in the Alabama listing with your cooperation.

CATC MAY 1979 Token Topics of California Association of Token Collectors Highlights: The March meeting was well attended with lots of swapping, however, the meeting was highlighted by Jim Garner's talk on the KKK and their exonomia, and the 83rd birthday of Roland Atwood (of AVA fame). Editor Steve Alpert presented Roland with 3 ancient coin replicas made for use in the 1926 MGM film "Ben Hur", in which Roland had a bit part. In addition to acting as an extra in silent movies, Roland also worked for many Hollywood celebrities such as Kirk Douglas and Jane Mansfield, as chauffeur and groundskeeper. CATC Editor Alpert reports that the Wilkers - Stan and Betty - CATC members are authors of the official Loose Change Blue Book and Red Book price guides for antique slot machines and trade stimulators, respectively. The books are available at \$6.95 each plus tax from the Mead Co., 21176 S. Alameda St., Long Beach, CA 90810.

Steve reports that the Alpert/Smith Amusement Token Catalog is nearing completion of the final page pasteup. It should be published this June or July.

CATC reports a big collectibles show in October. The large antique collectibles show will be held at the Great Western Exhibit Center in Los Angeles on October 5 - 7. Called the Loose Change Fair, it will feature all kinds of collectibles, including tokens and medals. Alpert encourages token dealers to set up at the show and make it an exnumia get-together, too. For more details see the handbill in this issue.

Lloyd reports progress on the Indiana Token Catalog: over 200 pages covering over 4000 different tokens. Also included is a maverick section with over 900 listings. This first edition is awaiting the approval of the TAMS Board of Governors. Let's hope the Board reaches an affirmative action in the near future. Lloyd is already into the second edition with almost 100 new listings already.

SEPTEMBER 29 AND 30, 1979 will be the days of the FALL PACIFIC NORTHWEST TOKEN AND MEDAL SHOW. Last year's show was a huge success for our first attempt at hosting a regional show. With the death of Clarence Heppner, my host for last year's show, this year AL AND NINA NYSTROM will join me in hosting this year's show. We are looking at a bigger and better show! We are already accepting checks for bourse fees of \$15.00 for a two-day table and \$10.00 for a one-day table. At this time we haven't yet finalized the location of the show, however, we are looking at the location we had last year. Our goal is to break even on expenses, hence the low cost for bourse fees. We feel that those having to drive or spend the night in town have enough expenses to incur without having a high bourse fee. As it was last year - we will have hourly door prizes, back issues of Trade Token Topics, grand prizes, and, hopefully, state meetings with maverick identification emphasis. This show will accentuate exnumia and postcards, however, coin dealers are allowed with a mixed stock. Last year we had several collectors from Idaho, Oregon, Alaska and Washington with a lot of selling and swapping. We even had Harry Campbell fly in from Salt Lake City for several hours. We would like the participation of other surrounding states. A lot of material from Montana, Nevada, and California finds its way via the collectors. We welcome one and all to the show. The next issue of Trade Token Topics will give more definitive details on the show. Mail checks to Bary D. Bender, 752 N. 74th, Seattle, Washington 98103. British Columbia was represented at the show, too.

THE MYSTERY OF THE MAVERICK

By Bill Clapper, METCA 25

I hope by now that collectors are becoming more interested in old and rare mavericks. As stated, they are a mystery and that is what makes them so interesting.

I promised in my last article to show some real interesting and unusual old mavericks and here they are:

G. Traebing's
5 Cents
Liberty Head
Counterstamped
"A K"
Brass

Anthony &
Kuhns Garden
Waiters Check
Brass

Schun &
Colonialw.
v.
G. Decker
Silver
Plated
zinc.

All of these appear to be very old and no doubt from the eastern part of our country. The silver plated zinc piece could be foreign. It does give a collector some ideas about the areas of collecting old mavericks.

Now, I would like to show some unusual names and I think that some of the collectors will see that collecting unusual name tokens can be interesting. Too, they are much easier to identify. Those that read Smith, Jones, Brown and Green are very hard to place unless they have some other identifying information such as an address or business name.

(1) Hollopeter's Smoke House (2) Paswater's Market (3) Fred e Mercogliano, Box 624 (4) Panetteria Italiana (5) A. Pezzuto (6) S. Massoni, 76 Wells St. (7) Ig Granacki (8) Battie Fitzpatrick (9) S.M.S. Geier (10) Hellas J.A.F. (11) The Flying Boots, So. 38th & G.

I will now list a large grouping of mavericks for various styles, sizes, etc. Again, it should give the collector some ideas of what to collect in mavericks.

[illegible]

7

(8) Stoddard Supply Co. (L.A. Rubber Stamp Co.) I have always been most interested in tokens that have the stamping of the maker on the obverse of the token, especially when I do not find the token listed. (9) C. S. Chace & Co. I found this token in New Mexico about six years ago and have never been able to attribute it. It is a very old token and could be almost anything from a trader to a saloon token. (10) Legal Tender Bar, J.D. Carmichael, Prop. I listed a few of these in my last article and wanted to make comment on these old BARS. They were around at the same time that the Saloons were around. The fact that they say bar instead of saloon takes the glamour away from them and yet they served the same purpose and are interesting to collect. (11) At Santa Fe Pool Hall, S.Z. This token has always interested me because it is the only token that I have with Santa Fe on it and I collect New Mexico tokens. I do not know where this is from. (12) O.L. Gregory. I personally bought this nice old token from a "digger" at Magdalena, New Mexico. He dug it at Kelly, N.M., a ghost town just a short distance from Magdalena. (13) J.E. Estes. I like nice old designed tokens of German Silver and have dozens of such beautiful old tokens. I obtained this one from California. (14) The Yellowstone, Schulz & Bashey, 512-9th St. This came to me in a group of rare old California tokens. I list it because someone took a hammer to the reverse. To some this makes a difference and they would not own it because it is damaged. It is still a token and no doubt unlisted - that does not destroy the rarity of it and I would rather have it than none at all. What I saying is, collect them all if you are going to collect. If you are a true token collector you do not rate tokens as coin collectors do. They do not have to be XF to make them collectable. (15) Walter Morton, Sporting Goods. I got this token many years ago and on the envelope it came in, it was marked Virginia City, Nev. and yet I have been unable to find any one who can attribute it to Virginia City. Again, that is what makes maverick collecting interesting. Where is it from? (16) O.D. Eastwood, Cor. 3rd & D Sts. I suspect that this token is from Sacramento, but again, it is not listed and could be a unique token. I can only repeat myself, this is what makes the collecting of mavericks interesting. (17) Albert C. Johnson, Proprietor N-E-T-E Cigar Store. While I have listed some "fancy" tokens I wanted to list this one because it has one of the most beautiful reverses that I have seen. It is no doubt a west coast token.

Now, I have carried this article to a longer degree than I had intended, however I was trying to show my reasons for collecting the various maverick tokens that I have. If it gives you one or two reasons to collect them, then I have done my job well. Until next month.

THE MAVERICK TOKEN - SHOULD YOU BUY?

NOW MORE THAN EVER THIS DISCUSSION IS NECESSARY, THE HOBBY IS BOOMING AND COLLECTORS OF EXONUMIA ARE SNAPPING UP TOKENS AT A RATE THAT LEAVES MORE & MORE MAVERICKS BEGGING FOR A HOME! FURTHER, MAVERICKS ARE GENERALLY LESS EXPENSIVE THAN THEIR CATALOGED COUNTERPARTS. THESE TOKENS - ALMOST COMPLETELY OVERLOOKED A DECADE AGO - ARE NOW MORE ATTRACTIVE TO THE COLLECTOR THAN EVER.

THESE FACTS RAISE AN IMPORTANT QUESTION; ARE OFFERED MAVERICKS DEFINITELY ATTRIBUTED? PROBABLY NOT! MOST INCORRECT ATTRIBUTIONS ARE UNINTENTIONAL AND CAUSED BY OVER EAGERNESS, MISINTERPRETATION OR SIMPLE LACK OF NATIONWIDE SCOPE. HOWEVER, IF YOU THE COLLECTOR (WHETHER BIDDING OR BUYING) ACCEPT ALL ATTRIBUTIONS AS CORRECT IN YOUR ZEAL TO AD TO YOUR COLLECTION YOU ARE PLAYING A HAZARDOUS GAME! REMOVING THAT MAVERICK FROM YOUR COLLECTION LATER LEAVES A HOLE TO FILL, A TOKEN TO SELL AND A BAD FEELING NEEDLESS TO SAY!

ATTRIBUTION IS AN EFFORT MADE BY AN INDIVIDUAL EAGER TO ATTRIBUTE TO HIS STATE (OR YOURS IF YOU ARE HIS "MARK") AND HUNDREDS OF PEOPLE NATIONWIDE ARE IDENTIFYING THE MAVERICKS YOU BUY. IN THIS INSTANCE LOCALIZATION IS DETRIMENTAL TO THE EFFORT PUT FORTH. IS THE ILLINOIS INDIVIDUAL EAGER TO ATTRIBUTE TO HIS STATE OR YOURS HUNDREDS OF MILES AWAY! OBVIOUSLY, MOST OF HIS DIRECTORIES ARE LOCAL AS WELL. NATIONWIDE EXONUMIA ORGANIZATIONS OFFER MAVERICKS FOR IDENTIFICATION, BUT THIS OFTEN CREATES AN ABSURD TYPE OF "COMPETITION" BETWEEN MEMBERS. METCA GUIDELINES ARE STRICT AND ELIMINATE THIS TO A GREAT DEGREE SO YOUR TOKEN WITH THREE INITIALS WON'T BE POSITIVELY IDENTIFIED. AT ANY RATE, ATTRIBUTION "COMPETITION" IS DELETERIOUS TO THE HOBBY!

NOW, WHAT MAVERICKS SHOULD YOU AVOID? FIRST, ANYTHING WITH INITIALS ONLY - THAT'S PRETTY OBVIOUS. SECOND, ANY TOKEN WITH A NAME ONLY. THAT STATEMENT MAY SET SOME PEOPLE SCREAMING, BUT IT IS TRUE. COMMON NAMES ON TOKENS SHOULD BE AVOIDED FOR JUST THAT REASON - THEY'RE COMMON! EVEN IF YOU LIVE IN LOS ANGELES AND YOUR "MEYER" MAVERICK HAS "JOHN M." BEFORE IT STOP AND THINK. THAT NAME HAS PROBABLY BEEN USED BY DOZENS OF INDIVIDUALS IN THOUSANDS OF TOWNS IN CALIFORNIA AND HER SURROUNDING STATES AS WELL AS NATIONWIDE. NOT ONLY THAT, YOU MUST REMEMBER THE THREE QUARTERS OF A CENTURY PAST. AGAIN, THOUSANDS OF BUSINESSES - NO, TENS OF THOUSANDS - HAVE STARTED AND ENDED. DO YOU STILL THINK YOUR "JOHN M. MEYER" NAME ONLY TOKEN IS DEFINITELY ATTRIBUTED? THIS SAME REASONING MAKES SENSE REGARDING COMMON CONCERN NAMES AS WELL. "STAR HOTEL", "EAGLE SALOON" AND "JOE'S TAVERN" COULD BE FROM AS MANY AS TWO DOZEN STATES AND UNLESS YOU HAVE A FULL INDIVIDUAL NAME ON THAT PIECE YOU'LL NEVER KNOW WHERE THAT ONE IS FROM. AT THAT, THE ADVERTISED "NAME AND ADDRESS" MAVERICK MAY NOT BE ATTRIBUTED POSITIVELY. "BUNK", YOU SAY? CONSIDER THAT MOST (PERHAPS 90%) OF MAVERICKS ARE ATTRIBUTED USING AN R.G. DUN OR POLK BUSINESS DIRECTORY. THESE PROVIDE ONLY AN INDIVIDUAL NAME AND RARELY A CONCERN NAME. TOO, ADDRESSES ARE NOT LISTED AND FEW PEOPLE ARE GOING TO MAKE AN EFFORT TO GO TO TOWN AND RESEARCH EVERY MAVERICK JUST TO SELL THEM FOR A FEW BUCKS. THEN TO, FEW DEALERS OR COLLECTORS HAVE MORE THAN A COUPLE OF THESE DIRECTORIES AND THE YEARS BETWEEN CAN MAKE A DIFFERENCE IN FINDING OR MISSING THAT MAVERICK - EVEN IF YOU HAVE THEM EVERY FIVE YEARS FOR FIFTY YEARS.

A NEBRASKA COLLECTOR MAY COVET HIS "CAIRO/5¢/IN TRADE/RESTAURANT" TOKEN, BUT HE'LL NEVER PROVE IT BECAUSE SO MANY CAIRO'S EXIST, MOST OF COURSE HAD RESTAURANTS TO. THE TOWN NAME TOKEN CAN BE A FALSE HELP IN BUILDING YOUR COLLECTION ALSO. LET'S GET ONE THING STRAIGHT: THE UNCOMMON NAME ONLY OR CONCERN NAME ONLY MAVERICK CAN BE ATTRIBUTED TO A GREAT DEGREE. "F.L. PFÜLSCHYK" AND "QUANKILL'S HOTEL" ARE EXTREME BUT ILLUSTRATIVE EXAMPLES.

IN CONCLUSION, DON'T THINK BADLY OF MAVERICKS, JUST WATCH OUT FOR ATTRIBUTION WHEN BIDDING OR BUYING. HECK, MR. CLAPPER'S COLUMN SHOWS HIS LOVE FOR HIS SUPERB COLLECTION OF MAVERICKS, AND I AGREE THAT THEY ARE INTERESTING, CHALLENGING AND WONDERFULLY CONUSING! WHAT I WILL SAY IS THIS - BUY OR BID WITH A COLD HEART AND JAUNDICED EYE! IT'S YOUR MONEY SO ASK FOR A FULL PEDIGREE FROM THE SELLER AND YOU WON'T BE DISAPPOINTED. THAT MAVERICK MAY BE LOWLY NOW, BUT THINK OF THE FUTURE WHEN BUYING. TEN YEARS AGO BRUNSWICK, BALKE & COLLENDER TOKENS COULD BE PURCHASED FOR A QUARTER. NOW A RECENT AUCTION BROUGHT BIDS OF NO LESS THAN \$12.50 FOR A GROUP OF MAVERICKS. ISN'T THIS ALL THE MORE REASON TO HEED SOME (IF NOT ALL) OF THE ADVICE OFFERED?

OBV. & REV. SAME THE / JOE BREN / CO.

This maverick would, under normal circumstances, never be identified or given much concern. Mike O'Brien sent me this token for information which I could not find, however it was stapled to a 53 year old pamphlet that told me all I needed to know about the Joe Bren Co. in order to appreciate what it represented. So I feature this unusual story this month - with secondary emphasis on the token!

Marked on the 2X2 the piece came in was "Found in Joe Heitkoher's estate 1974" and a simple brochure entitled "SONGS THAT EVERYBODY KNOWS" compliments the Joe Bren Production Co., quality entertainment. Room 1000-6 Garrick Theatre Bldg. 64 W. Randolph St. Chicago, Ill. Inside are such delightful tunes as "Hail! Hail!" for starters, followed by 49 more; "Peggy O'neil", "Indiana", "Till we meet again", "I love a lassie", "Sweet Adeline" and more. This was 1926, the stock market crash 3 years off, no wars, prosperity, Babe Ruth and flappers. Altogether a good year to get the family together on a hot summer day and sing along or listen to an evenings entertainment at the Garrick Theatre! So for a time, be it ever so slight, a maverick token and a yellowed old brochure brings back a time not known to me; many wars ago, before our enslavement to TV, high food and gas prices and nuclear plant leaks! I hope METCA readers' token(s) can bring back good feelings about a time long gone whatever year it may be!

Another interesting piece from Bill Massey of California which may have something to do with a seamen's organization or the like. I'm also hoping METCA members can help with the Latin wording along with supplying some information about this token.

For far too long we've ignored these type of club or organization tokens and concentrated on the more familiar and cataloged Masonic pieces. Most sales see these pieces go begging or sell for low prices! Now is the time for someone to list the many types of "organization" tokens just for this reason. Interest is always high and I doubt the prices will remain low for long. Consider the high prices certain amusement tokens are bringing!

BRASS 31MM ROUND PLAIN EDGE

OBV. SWASTEKA / (PAW OF ANIMAL) / GROCERY

REV. SWASTEKA / (SWASTIKA) / GROCERY

Texan Jerry Adams provides both of this months unusual tokens, this one shown above one of the oddest ever featured! Undoubtedly pre-WWII, why did the token feature the totally incorrect spelling? Surely the token maker as well as the issuer knew about this. Know one seems to be able to place the paw of the animal either! Wolf, coyote or a product of a die-sinkers imagination? It seems that any concern which would issue a non-denominational piece and not give any name of proprietor or street address must have been large enough to have felt this information was not necessary, but know one knows where this piece is from. I must add that this unusual token would probably be the highlight of anyones Swastika token collection! Let's hear from anyone who can help.

BRASS 39MM ROUND PLAIN EDGE

OBV. W P / (2 OLD-STYLE CROSSED CANNONS & EXPLODING CANNONBALL) / RIA

REV. No / (FOLLOWED BY INCUSE NUMBER) / 1882

Somewhat different than the piece listed in Curto, old military "pictorial" tokens are in demand and always seem to strike exnumists fancy! The initials "RIA" stand for Rock Island Arsenal and place this piece from Rock Island, Ill. Actually, a small island in the Mississippi river between Davenport, Iowa and Rock Island is the home of the arsenal and because of its strategic vantage point was the home of Fort Armstrong long before the Rock Island Arsenal when Illinois was considered a "Western" state. Lester Burzinski has an interesting Masonic piece from Rock Island that shows the old Fort Armstrong on the river as it must have looked during the 1840's. I'm sure an interesting array of exnumia could be arranged utilizing paper, photographic and metal material concerning the arsenal! Perhaps Fort Armstrong military exnumia exists too - I'm sure it would be rare.

I must mention that the long awaited publication of James Curto's second work on military exnumia is now available from Paul Cunningham, Box 1, Tecumseh, Mich 49286 and is quite a good buy at \$12.50. Ask for a copy of Paul's latest mail sale to!

Received Vol. I, No. 2 of Alaskan Token Collector and Polar Numismatist, a newsletter reviewing Alaskan price highlights, a review of "Yukon Trade Tokens" by Scott Simpson and Leslie C. Hill, an article on Grand Forks, Yukon Terr., and new issues, new discoveries, and coin club news. Send \$1.00 for further information to NSA Inc., Box 2832, Fairbanks, AK 99707.

Note Bill Massey's request in the classified ad section for help in cataloguing Quincy, Illinois tokens/exonumia.

Note the classified ad on the fixed price list of Alaskan material from NSA Inc. of Fairbanks - seven page list.

Fred Reed, Coin World News Editor, wrote to remind me that I overlooked the double-truck issue Coin World featured on Exonumia in the May 9, 1979 issue (pages 44-45). I had intended to alert the membership of the issue as a good source of reference on exonumia, however, I neglected to include the information in the May issue. Thanks, Fred, for the friendly reminder, and for Coin World's efforts in giving exonumia happenings weekly coverage.

Al Zaika, Bourse Chairman of the DVVA reports the Delaware Valley Vecturist Token and Medal Show was a big success, the best show since they started two years ago. The attendance was over 400, almost double last years figure. Registration shows collectors from 20 different states attended, from as far as CA, FL, OK, and S. Dak.

Terry Trantow reports that there seems to be an increasing number of mail bid sale ads in TTT. He wonders if a listing of "usual" MBS rules shouldn't be published. His questions on most sales usually revolve around whether bids will be reduced to second high bid (an increasing common rule), and whether postage will be added. On both items, some do, some don't, but many neither state such. As editor, I urge all those with mail bid sales in TTT to concern themselves to these valid points and closing date of the sale. I would like to see all mail bid sales close no earlier than three weeks after TTT is received, and return privileges. Perhaps we can arrive at a uniform set of Mail Bid Rules for TTT at a later date.

Joe Schmidt's small fracture in his right hand doesn't seem to hinder all of his typing, etc. (unless he hen pecks with his left hand). Joe would like me to change his title to Unusual Token Editor rather than Odd and Unusual Token Editor (he must be getting some ribbing on that title). Joe serves as METCA's Publicity Editor, too, and I would like to thank him for all his efforts on METCA's behalf.

New Member Bob Fairaizl, PO Bx 551, Mandan, ND 58554 collects ND, Tax tokens, and slot machine tokens.

Please add BRC, Brunswick-Ralke-Collender tokens to the collecting interests of Lew Egnew - page 15, May 1979 TTT.

Regarding the preliminary membership roster - now is the time to make final changes in the roster (additions, changes, etc.). As you see your name appear on roster information pages, please make your changes.

Benj Fauver, PO Bx 521, Menlo Park, CA 94025 (p 16 of May 1979 TTT) collects NE, CMT, HT, Pre-1900 US Storecards (as in Adams, Wright and Miller), Adm. Dewey Store cards, US game counters and spiel marken, Keep Your Temper & other Whist tokens, Kettle pieces, Geo. Washington 1899 Centennial pieces, Bryan Money and Struck US Politicals - Pre-1900. 19th C unofficial farthings, Australia and New Zealand 19th C. Tokens, and Early Canadian tokens.

Owen C Schmidt report the Western States of NV, WY, AZ, NM and WA have been slow to assist in the listing of saloon tokens (see progress report). The Counterstamp Listing of Owen C Schmidt will probably appear in the August issue of Trade Token Topics (TTT).

I'll be heading to North Dakota for two weeks beginning July 2nd so the July issue will be out late July. At that time I will probably get out many fine articles I have been holding in abeyance. I will probably be staying over in Missoula on July 4th (will try and chat with a few members there if possible). We will arrive in Williston, ND July 5th and stay most of the time. The following weekend we will be in Grand Forks with a short trek to Bemidji, MN for a visit with relatives. I say all of this as I will be carrying back issues of TTT and hopefully will be able to leave some with some of the members along the way to distribute to their state members.

"Amusement Tokens of the United States and Canada" BY Stephen Alpert and Kenneth Smith will be published this summer by the MEAD COMPANY, 21176 S. Alameda St., Long Beach, CA 90810. The 8½ X 11 soft covered book lists over 10,000 amusement tokens (each assigned a catalogue value) and has over 500 tokens illustrated by photographs. The price of the book is \$12.95, and orders are now being accepted for immediate shipment as soon as the book is published (sometime between mid July and late September).

When in San Diego, CA don't forget to visit John Hamilton III's "Collectors Classics". The shop is located in the Francis Family Bldg., 310 5th Ave., San Diego, CA 92101. Having seen some of John's vast inventory of quality material years past at Duane Feisel's Token Jamboree, be sure and visit his shop of exnumia. See his ad elsewhere in this issue.

Rich Hartzog sent in an alert on the George's, Fourteenth and Crawford, Ponca City, O.T. This deceptive fantasy token of the desireable (Oklahoma Territory) is not genuine, according to Lloyd Walker, cataloguer of OK tokens. It is brass, 28 mm, and has been artificially aged. The picture and alert appeared on page 14 of 30 May 1979 Coin World.

TAMS Journal June 1979 features several token articles: "Cracker Jack Presidential Tokens" by Thomas Casper; "Missouri Strawberry Tokens" by Don T. Thrall; "Military Tokens of the Wisconsin National Guard" by Gerald Johnson; "Coal, Iron and Chewing Gum" by Paul Dillingham, plus a number of other fine articles and regular features.

Harry Campbell, 1419 West Indiana Avenue, Salt Lake City, Utah 84104 Phone 801 - 363 - 2383 after 7:00 P.M. is still cataloguing UTAH TOKENS! He needs all your help and input. Keep 'em coming.

Wm. H. Clapper, PO Bx 1573, Sioux Falls, S.D. 57101 collects trade tokens from ND, SD, NM & NE. Also collecting Circus, Show and Carnival tokens, Billiard Supplier mavericks, and unusual old mavericks of the western states.

AUGUST 1 WILL BE THE FINAL CUT-OFF DATE FOR ALL INFORMATION RECEIVED!

SEND IN ALL YOUR MAVERICKS! WE'LL LIST THEM & THEY MAY BE IDENTIFIED!

Publication will commence after the indexed information is transferred to the final manuscript. As mentioned before, the format will be inexpensive so that as much profit will be available to unfunded exonomia organizations as possible.

A second work is not just contemplated, but will definitely be issued after sufficient additional listings are gathered.

Our thanks to Mr. Bender for his help in publicizing this effort!

SHOULD ANY METCA READERS LIVING IN THE ABOVE STATES WISH TO HELP ALL THAT IS NEEDED IS: exact wording on tokens with a / indicating line arrangements, shape, metal type & size in millimeters. Thanks to --

ODD AND UNUSUAL TOKENS SILVER 31MM ROUND

OBV. Sugar Palace Exposition / (view of exposition building) / Grand Island Neb 1890

REV. (A sugar beet within a wreath)

One of this columns' most unusual pictorial tokens ever featured! I doubt if any other tokens extant are known showing this device. I've always had an idea that a collection of these type of tokens would be most challenging and from a research point of view, quite absorbing! I know of the Minneapolis Ice Carnival tokens and the single known Momenca, Illinois Hay Palace Exposition token. Arnold Winfield recently found a piece that escaped Jim Wright and Lee Nott's attention - the 1882 Denver Mining & Industrial Exposition piece in silver. So we know that many scarce tokens representing small town celebrations exist to go along with the many larger "exposition" type tokens that are somewhat common. This type of collection could be formed inexpensively and could grow to 200 pieces very easily. The rewarding part of this type of collecting would undoubtedly be the research - and I maintain that collecting without curiosity is merely accumulating!

THE READERS RESPOND !

Definite word on the May "A.O.U.W." token from the following METCA members. Colorado exonomist Jim Andrews, Arizona wooden money collector H.C. Schmal, Lumber & Oregon cataloger Terry Trantow and Missouri trade token collector Mike Pfefferkorn. Thanks to all for the information sent! I'll quote from Jim Andrews excellent letter (with a little editing): " I have the constitution & by laws book (1891) for the Ancient Order of United Workmen, a fraternal and beneficial organization with lodges nationwide, the districts covering one or several states. Physical examination by a designated doctor was a membership requirement for the \$2,000 insurance policy and optional sick benefits. It seems this Society was one of those dedicated to improving moral, intellectual and social condition of members. Membership was limited to white males between the age of 21 and 50 regardless of nationality, politics and religion and denied to saloon keepers, bartenders, drunkards and opium eaters! Revenue for the Grand Lodge was derived from the sale of rituals charters and supplies to subordinate lodges which accounts for the many pins, ribbons, medals, gravemarkers, etc." Thanks Jim! No doubt those membership requirements would not exist today and rightly so. From the diework it seems this token was issued 1890 - 1910 or so. I mention again that a fine collection of the lesser known societies and/or organizations could be assembled at minimal cost and provide much enjoyment for the collector! One need not be wealthy to derive enjoyment from collecting any type of exonomia!

THE READERS RESPOND !

Lew Egnew wrote regarding this columns May "UNUSUAL TOKENS" and shed some light on 3 of them. Bill Massey's "A.O.U.W." token may stand for "American Organization of University Women", at least this is the modern use of the initials. Bills' token seems to be of an older vintage, so all that is needed is to find out how long the current "A.O.U.W." has been in operation and explain the anchor and Latin inscriptions.

Lew believes the paw on the "SWASTEKA GROCERY" token to be that of a rabbit in order to portray a good luck symbol on each side and thinks the die sinker might have provided his own interpretation having not seen a rabbits paw. Sounds logical, but I still think any concern large enough to forego a business or individual name or street address and town should be able to be identified - I hope someone does!

I'll quote directly from Lews' letter now as it made fascinating reading. Lew must know his subject as he relates: " The Rock Island Arsenal piece is a gun repair check usually found holed and fastened to the trigger guard of the weapon. I've seen these on both rifles and S.A. Colt revolvers when I was an active gun collector (attached to the trigger guards). There should be a lot more of these around than we see today. They were encountered fairly often on guns bought in earlier days through NRA sales from U.S. government supplies but I suppose they were removed and cast aside when the guns were for actual use. " Thanks, Lew! I'm sure Jerry Adams now has some good information to go along with his "Unusual Token". I'd like rubbings of your unusual tokens, too!

ALUMINUM 25MM ROUND

OBV. THE / YOUNG / FLEET REV. April / 19th / 1913

Mike O'Brien sent along this token with the notation "It's a puzzler", which it most certainly is! What was THE YOUNG FLEET? Why does the date figure more prominently than a location? Another one for METCA readers to write me about if anything comes up.

BRASS INCUSE 31MM ROUND

OBV. Wm.H.Schutter / NO.4 / Springfield / block

REV. 50 / Cts.

A companion piece to Wright 960 & that listed in the Dec. 1977 TAMS Volume 2, this was very crudely punched on the planchet seemingly by hand from the alternating strong & weak lettering and the depth of the impression. This accounts for both the poor rubbing and the apparent rarity. Should the reader own a piece that was punched or stamped on an unprepared planchet I'd like to feature it - this type of ex-numia is rarely found and could well be described as a link between the counterstamped coin & prepared die token - therefore I'd like to show a number of them if the readers respond!

Just another update on ULATCO news:

The members of the Utah La-Vecturist and Token Collectors Organization (U.L.A.T.C.O.) met again on May 23, 1979, at the home of Phil Lavorgna in the Salt Lake area. New members JoAnn and George Rogers, of Salt Lake City, and De Kelsey of Nephi were welcomed, along with present membership. An additional seven (?) new members have been recruited during the past month, and membership now stands at 30, not including honorary members. Phil gave a lecture on Friday, March 2, 1979, to the Promontory Chapter of the National Railroad Historical Society, in the Union Pacific Depot in Salt Lake City. His subject covered streetcars of Salt Lake City and inter urbans of Utah, and with the aid of slides, it also covered national and international items.

Our congratulations to member Roy Nulph who was elected as Vice President of the A. V. A. Although Roy ran unopposed, his term will cover the next two years, and as Salt Lake City will host the A. V. A. convention in 1981, Roy will have his work cut out for him.

This author had the privilege of being invited to lecture on tokens to the members of the Numismatic Society of Utah in Salt Lake City on April 18, 1979, and again to the Coin Club in Ogden City on May 2, 1979. Much new token material came to light because of this. On May 16, 1979, I was very surprised to be presented with the A. N. A. Education Award for tokens by the Numismatic Society of Utah. I feel this honor is reflective on all token collectors every where, and especially to the membership of U.L.A.T.C.O.

Recent trends have shown that Exonomia is coming of age, this being brought to light recently in the May 9th issue on 'Exonomia' in the 'Coin World' paper.

Membership was informed that I finally got my saloon token list ready to send for Owen & Schmidt's forthcoming book, 'Saloon Tokens of America', some 81 pieces. I am currently cataloging over 600 tokens recently found in Utah from the state of Oregon for Terry Trantow.

So, here's to a successful year for all.

TRADE TOKEN TOPICS is the official publication of the Merchant Token Collectors Association and is published in Seattle, Washington on a monthly basis to members in good standing. Mailing address - METCA, 752 N. 74th, Seattle, Washington 98103. (206) - 782 - 5769.

Display advertising rates for Trade Token Topics: Full Page - \$12.00 (\$10.00 if typed); Half Page - \$6.00 (\$5.00 if typed); Qtr. Page - \$4.00. Simply use regular 8½" X 11" paper when remitting your ad. Please use a good dark ribbon. Ads get reduced 75% at press time. Classified ads are free, 4 - 6 lines, each issue, provided they are different.

Having been gone three weeks, needless to say, I am way behind and apologize on ads, mail bid sales, etc. that will be affected. All ads appearing in this issue should close no sooner than two weeks. Three weeks is the norm on mail bid sales (so disregard any dates on ads that don't appear to correspond with a 2 to 3 week deadline). I want to get two more TTT's out before the Pacific Northwest Token and Medal Show to be held in Seattle on September 29 and 30th. Kindly rush mail bid sales, etc. for the August issue on receiving this late July issue. Regarding the Bob Southwick Mail Bid Sale in this issue - some of the tokens have been sold (I didn't have time to return his submitted sale for new additions and deletions, so I will take the heat on this matter).

Just a quick rundown on my trip - On the way over to Montana I dropped by and visited John Calhoun in Post Falls, Idaho. John and his wife, Bonnie, have a nice setup for their token hobby. They had a swell show in Spokane and were instrumental in collecting a nice sum of money for Chriss at the show. They had a METCA sign and were responsible for signing up 7 new members. Continuing on we stopped to visit Richard Magnuson in Wallace, Idaho, however, they were filming the movie, Wyoming Cattle Drive, starring Kris Kristofferson, and the scene was near Main Street with the town packed. We proceeded on - staying overnight in Deer Lodge, MT (as we couldn't get Ford Knight on the phone in Missoula). We didn't call a lot of members as we always seemed to be going through a town during working hours. Different stops along the way included the Epping, ND Buffalo Trails Museum where we spotted several hard to get Williams County merchant tokens on display. We missed seeing O. H. Berve in Williston, ND, however, we left back issues for him at his cousin's. We spent a weekend in Grand Forks, ND, however, I took one day to meet long-lost relatives at my mother's birthplace - Adams, ND (I would like to purchase or trade for an Adams, ND token if anyone has a duplicate). I left back issues for Glen Jorde and John Bertheussen in Grand Forks. Returning back to Williston we stopped to visit Tom's Coin Shop, 123 1st St., SW in Minot, ND. A few of you have stopped by his shop for tokens. I left Tom with some application forms for new members. Returning home we stopped in Missoula, MT and visited Dave Hakes' Coin Shop and then had a nice visit with Ford Knight. We left back issues with Ford for some of you who live in that area. Ford has a vast knowledge of Montana tokens and history, and it was truly a nice visit with him at his shop in Missoula. A few hours later we visited Richard Magnuson in Wallace (without Kris and company - oh!) for a spell. Richard wanted me to tell the membership that he recently acquired a Hotel Directory (1909) for the United States and Western Europe. He says if you want a hotel maverick researched, kindly submit appropriate information (also information where you think the state is, if possible). Hotel name, prop. name, etc. will help if you think the token is from the 1905 - 1915 era. Write Dick at 414 5th St., Wallace, Idaho 83873. Basically, that is the extent of the trip as far as token matters are concerned.

Due to our average issue - 32 pages - I run out of room for a lot of information I like to pass on to the membership, i.e., exnumia highlights, personal highlights of members, etc. Ed. Echoes will contain information that should have appeared in the June issue.

Member George Hoyer reports a coin show September 21, 22, & 23 in Victoria, B.C. George always carry a binder to Canadian and U.S. token to the shows.

Please note address change for Ed Saunders - 5228 SE Hawthorne Blvd., Portland, OR 97215

METCA welcomes new member, Dana Roberts, a native Seattelite, to our ranks (see class. sect.).

Jim Millard states that due to METCA notices, the Alabama town list has grown to 277 towns and a few unknown collectors "popping up".

Tokens can be sent in care of METCA for auction purposes to benefit Chriss Christiansen. I still have many to list. Thanks to those of you who have been so generous in donating money and tokens.

I forgot to mention that Charles V. Kappen received the Numismatic Ambassador Award from Chet Krause of Krause Publications, Iola, Wis., at the banquet of the California State Numismatic Assn. in San Francisco in April.

Word from Steve Alpert is that the new Amusement Token Catalogue has not been given a definitive retail price. METCA mentioned in earlier reports that \$12.95 was to be the price.

John D. Mullen reports the Bank Token Society had a successful meeting in Philadelphia on May 12th which was held during the 3rd annual Token and Medal Show hosted by the Delaware Vecturist Association, Al Zaika Chairman. At that BTS meeting, the following members were nominated for and have subsequently been elected to the offices of: Dr. Herman Aqua - President; Paul F. White - Vice-President; John D. Mullen - Secretary-Treasurer; Frank F. Deegan - Director; Duane H. Feisel - Director; Gary Pipher - Director; and W. Arnold Reynolds - Director.

June 1979 FARE BOX: With a great deal of sadness I read of the death of Ralph Freiberg, one of the real giants in vecturist circles. When I first met Clarence Heppner years ago he made it a point to seek out Ralph when we attended Feisel's Token Jamboree years past. Hepp and I were serious horsecar collectors and baseball aficionados so Hepp said we had to meet Ralph right away. For years and years Ralph had been one of the guiding lights of AVA. Now that Ralph is gone the fruits of his labor will forever shine. Other articles appearing in this' issue include The Door County Liveryman by Gerald Johnson; the Paradise Island Bridge Tokens of Nassau Bahamas; some Early German Streetcar Tokens; The Richmond Karting Co. Tokens by Ralph Burry, and other regular features, mail bid sales, and classified section.

Edkin's revised edition was noted, TN - KY - OH featured, and TV coverage of aspects of the event occurred. Scrip Talk notes that Paul Jensen was on his first trip following his heart attack and Scriptor John Fliss and Cole Cuttle face hospital visits yet. A big change in NSCA follows amended by laws bringing in others categories of tokens into the field. Bob Craig authors a long article on Pain Creek Collieries Company Tokens. Scriptor Bill Williams is new President of NSCA.

Alaska collector David Fronius writes that he is planning to attend the September 29 and 30 Token and Medal Show here in Seattle to be held at the Norselander Restaurant (at the Norway Center). The listed tokens are for trade for Wyoming merchant tokens. I will also consider tokens from the following States: Colorado, Utah, Montana, Nevada, Idaho, New Mexico, Arizona, Oklahoma and saloon tokens from any State. Cash offers will be considered, but trades will have priority, especially on Wyoming tokens that I can use. All parties offering trades or cash will be notified of the successful bid on that particular lot. Offer expires fifteen days after I receive my issue of T.T.T.

A CLOSE (AND BIASED) LOOK AT MAIL BID SALES

IT'S TIME TO THROW LAURELS AND BRICKS AT A PRIME SOURCE OF ADDING TO OUR COLLECTIONS. THE MAIL BID DEALER AND HIS SALES! NATIONWIDE MAIL BID SALES ARE CONDUCTED BY ONE PERSON OR AN EXTENSION OF A MAJOR NUMISMATIC CONCERN AND THEIR CONSIGNMENTS AND/OR PERSONAL MATERIAL ARE OFFERED TO YOU. 20% OF WHAT YOU PAY GOES TO THE DEALER WHICH GIVES HIM SOME PROFIT AND PAYS FOR HIS EFFORTS IN GETTING A CATALOG TO YOU, AND THIS IS NO EASY TASK!

NO MATTER WHAT YOU THINK OF THESE FELLOWS, MAIL BID DEALERS WORK DARN HARD, WHICH IS WHY NO ONE DEALING EXCLUSIVELY IN EXONUMIA IS RICH OR EVEN CLOSE. CONSIGNED AND PERSONAL MATERIAL IS CAREFULLY CATALOGED AND GRADED. CATALOGING REQUIRES REFERENCE MATERIAL AND A REPRESENTATIVE EXONUMIA LIBRARY COSTS AROUND \$600, KEEP THAT IN MIND SHOULD YOU WANT TO GET INTO THE BUSINESS. NEXT COMES CATALOG PREPARATION WHICH INCLUDES ARRANGING, TYPING, DESIGN, PHOTOGRAPHY, PRINTING AND MORE. EVEN THE LABELS COST MONEY TO HAVE MADE UP AND/OR PURCHASED FROM EXONUMIA ORGANIZATION MEMBERSHIP ROLES. THAT'S WHY YOU GET CATALOGS FROM PEOPLE YOU DON'T KNOW. DON'T WORRY- THEY KNOW YOU! ALL THIS TIME AND EXPENSE (OOPS! FORGOT POSTAGE) JUST TO PUT A WIDE RANGE OF EXONUMIA BEFORE YOUR EYES, BUT IF YOU DON'T BID FOR 2 OR 3 SALES THEY'LL DROP YOU! NOW FOR SOMETHING YOU DON'T KNOW- YOU CAN WRITE ANY NATIONWIDE MAIL BID CONCERN AN ENTHUSIASTIC, PERSONAL NOTE TELLING HIM WHAT YOU COLLECT AND YOU'D LOVE A COPY OF HIS NEXT SALE AND YOU'LL GET 3 OR 4 OF HIS SALES. KEEP BIDDING AND THEY'LL KEEP COMING, SOME EVEN WITH FREE PRICES REALIZED! NOW THE SALE IS OVER, BUT ONLY FOR YOU.

THE DEALER MUST LABORIOUSLY POST HUNDREDS OR EVEN THOUSANDS OF BIDS (MANY ON ONE ITEM). HE CAN'T MAKE ANY MISTAKES AND YOU WON'T TOLERATE ONE, BUT THIS GUY WORKS LONG INTO THE NIGHT WHILE YOU ARE GRIPING ABOUT HOW LONG IT TAKES TO GET YOUR MATERIAL. PROPER INVOICING, PACKAGING AND MAILING ENDS THE DEALERS WORK-OR DOES IT? SOME PEOPLE WON'T LIKE THE GRADING AND RETURN THE STUFF (NO MATTER HOW CAREFUL THE DEALER IS), SOME WILL GET A MINIMUM INSURANCE PARCEL THEY WON'T HAVE TO SIGN FOR AND TELL THE DEALER HE NEVER GOT IT. OTHER PEOPLE MAY BOUNCE CHECKS OR BE LATE IN PAYING.

FINALLY, THE DEALER IS GETTING GREY HAIR WAITING FOR HUNDREDS OF CHECKS SO HE CAN PAY HIS CONSIGNORS WHO IN TURN ARE COMPLAINING ABOUT LOW PRICES REALIZED, LATE PAYMENT, AND IMPROPER REPRESENTATION OF THEIR MATERIAL. THE DEALER NOW SENDS CONSIGNORS CHECKS (WHICH CAN GET LOST) AND PAYS A MINT FOR POSTAGE AND INSURANCE TO SEND BACK UNSOLD LOTS TO CONSIGNORS. TYPING UP AND SENDING OUT PRICES REALIZED FINALLY ENDS THE DEALERS MISERY, RIGHT? NO, IT'S TIME FOR ANOTHER SALE!

BEFORE WE HOLD A TELETHON FOR MAIL BID SALE DEALERS A FEW THINGS MUST BE CONSIDERED, HOWEVER. MAIL BID SALE DEALERS GET AROUND A LOT AND PICK UP A LOT OF EXONUMIA AT ONE-TENTH IT'S RESALE VALUE. THEY DO OK BECAUSE EXPERIENCE AND ALL THOSE REFERENCE WORKS COME IN HANDY! REMEMBER MY MENTIONING PERSONAL MATERIAL IN MAIL BID SALES? SOME SALES FEATURE ENOUGH OF THIS STUFF TO MAKEUP A THIRD OF THE LOTS LISTED AND THE PROFIT IS PRETTY DARNED HIGH! HIGH ENOUGH SO THAT A TOPIC OF DISCUSSION WHEN THESE GUYS GET TOGETHER IS HOW MUCH WAS MADE ON THAT LOT COSTING A BUCK.

OK, NOW A FEW WORDS OF CAUTION TO YOU - THE BIDDER! NO ONE GOVERNS MAIL BID SALES AND YOU'D BETTER READ EVERY DARN RULE BEFORE YOU SIGN THE BID SHEET AND SEND IT IN AS SIGNING INDICATES YOU'LL FOLLOW THE RULES AND CAN BE HELD TO THEM! IT IS AN UNFORTUNATE FACT THAT ONLY EXPERIENCE WILL TELL YOU WHO IS GRADING CORRECTLY AND ACTUALLY LOWERING YOUR BID (WHICH MUST BE OVER \$10) TO 10% OVER THE NEXT HIGHEST. CONSIDER THIS, FOR THE PRIVILEGE OF GETTING A BADLY GRADED TOKEN (OR MANY) YOU THE CUSTOMER MUST ABSORB THE COST OF SENDING THE PACKAGE BACK; POSTAGE, INSURANCE AND RETURN RECEIPT. I'D NOT FORGET THE RETURN RECEIPT AS IT'S PROOF THE DEALER GOT BACK THE MATERIAL, AND YOU'VE PAID ENOUGH ALREADY! NOW LET'S LOOK AT BIDDING, A SCIENCE IN ITSELF.

OBSERVE THE MINIMUM BID, IT CAN BE 65¢ OR \$4 BUT IS USUALLY PEGGED AT A BUCK. SHOULD YOU WANT TO BID THE MINIMUM YOU'LL BE DOING SO WITH A LOT OF OTHERS, SO BID 1.07 OR 1.11 AND CHANCES ARE YOU'LL BEAT A BUNCH OF 1.00, 1.01, 1.03 OR 1.05 BIDDERS. TRUE, IT'S A LITTLE MORE WORK FOR THE DEALER BUT ALSO A FEW CENTS MORE PROFIT. AS FOR DUMB ACTIONS, BIDDING OVER A DEALERS ESTIMATE TAKES THE CAKE! I ACTUALLY THINK DEALERS PUT DOWN ESTIMATES TO SCARE NEW AND INEXPERIENCED CUSTOMERS INTO BIDDING HIGHER. THEY'LL YELL AT THAT STATEMENT SO I'LL BACK UP AND SAY A FEW "ESTIMATORS" ACTUALLY DO TRY TO HELP. PRICES REALIZED OF ONE DEALERS FIRST 3 SALES WERE LOWER THAN THE ESTIMATES IN

80% OF THE LOTS! THAT MUST TELL YOU SOMETHING BECAUSE THE DEALER IS JUST NOT SO DUMB AS TO SET ESTIMATES THAT HIGH OUT OF IGNORANCE, RIGHT? HOWEVER, RARE AND CHOICE EXONUMIA OFTEN EXCEEDS ESTIMATES, BUT THAT'S ONLY A SMALL PERCENTAGE OF THE TOTAL SALE. NOW TO PAN A FEW DEALERS, BUT NOT BY NAME! "GOOD FORS" UNLESS FROM SMALL TOWNS OR THE LIKE DON'T BRING VERY HIGH BIDS, BUT THE FIRST SALES OF MANY DEALERS A DECADE OR SO AGO CONTAINED A LOT OF THIS MATERIAL - IT KEPT THE BEGINNERS GOING. THE TREND LATELY IS TO OMIT THIS MATERIAL BECAUSE IT'S A LOT EASIER TO LIST CATALOG NUMBERS OF OTHER EXONUMIA. GIVE ME THIS PAGE FOR A MAIL BID SALE AND I'LL LOAD IT WITH CIVIL WAR PATRIOTICS AND STORECARDS, HARD TIMES TOKENS AND STORECARDS. MY PROFIT WILL POSSIBLY BE 10 TIMES GREATER THAN IT WOULD HAVE BEEN BY LISTING "GOOD FORS". DEALERS OWE SOMETHING TO THAT "GOOD FOR" SO IT'S A SHAME LARGER MAIL BID SALE DEALERS ARE FORSAKING THEM TO THE POINT OF IGNORING THEM. LET'S FACE IT, EXONUMIA IS STILL (AND BECAUSE OF IT'S WIDE SCOPE) A HOBBY, AND ABOUT ONE THIRD OF US BID A BUCK OR TWO ON TEN LOTS WHEN WE GET A SALE BECAUSE WE ARE NOT RICH.

WHILE ON THE SUBJECT OF ELIMINATING THE AVERAGE EXONUMIST, A RECENT MAIL BID SALE I DO NOT GET BUT WAS SHOWN TO ME BY A FRIEND INDICATED A \$4 MINIMUM BID - WHAT A SHAME. THERE GO ANOTHER 20% OF US ORDINARY WORKING STIFFS WHO THE DEALER FIGURES HE DOESN'T NEED BECAUSE DOLLAR BIDS ARE TOO NUMEROUS FOR HIM TO POST!

ON TO THE NEXT SUBJECT - CONSIGNING. THIS MAY COME AS A SHOCK, BUT IF YOU SECURELY WRAP ALL YOUR EXONUMY, INSURE IT AND SEND IT TO A DEALER YOU'LL PROBABLY GET THE INEXPENSIVE STUFF BACK. ONE GUY I KNOW HAD 600 PIECES "CHERRY-PICKED" TO THE POINT OF 500 PIECES RETURNED. BEFORE CONSIGNING MAKE SURE YOU ARE NOT GOING TO BE LEFT SITTING WITH HALF OF WHAT YOU WANTED TO SELL, IT CAN BE DEPRESSING TRYING TO DUMP IT YOURSELF - TRY IT! REMEMBER THE EXPERIENCE I TALKED ABOUT GETTING? THERE IS AN ALTERNATIVE - NEXT TIME YOU TALK TO A FELLOW EXONUMIST OR A GROUP SPEAK UP! I'M AMAZED THAT SO FEW OF YOU SPEAK UP ABOUT BEING BURNED BY A DEALER! YOU'LL TALK ABOUT THAT CAR BEING A \$5,000.00 LEMON BUT NOT THE \$5 TOKEN. YOU'D BE SURPRISED WHAT HAPPENS AND HOW MUCH YOU'LL LEARN BY NAMING NAMES AND SPEAKING FRANKLY!

LET'S SAY YOU THINK YOU GOT BURNED ON THE LOTS YOU WON AND GO FROM THERE. FIRST, BE POLITE AND MAKE EVERY EFFORT TO SETTLE IT WITH THE DEALER. IF THIS DOESN'T HELP YOU BETTER HOPE THE DEALER IS AN AMERICAN NUMISMATIC ASSOCIATION MEMBER! IN FACT, I WOULD SERIOUSLY SUGGEST NOT HAVING ANYTHING TO DO WITH A NON ANA MEMBER. YOU ARE OUT OF LUCK IN THAT CASE SHOULD A PROBLEM ARISE. BACK TO YOUR IMPASSE WITH THE DEALER, WRITE THE ASSISTANT TO THE EXECUTIVE VICE-PRESIDENT OF THE ANA, HIS NAME IS ON THE ONE OF THE FIRST FEW PAGES OF THE "NUMISMATIST". DESCRIBE EVERYTHING IN FULL, INCLUDE ALL OTHER MATERIAL SUCH AS INVOICES (OR BETTER YET THE TOKENS) AND SEND THE ORIGINAL TO THE ANA. KEEP COPIES OF EVERYTHING FOR YOUR RECORDS AND THE OTHER PARTY AS HE HAS A RIGHT TO KNOW WHAT'S GOING ON. ACTION WILL BE TAKEN AND THE DISPUTE SETTLED, EVEN IF IT TAKES A LITTLE TIME. CONCERNING METCA MAIL BID SALES, CASH OFFER AND TRADE LISTS YOU CAN'T DO ANYTHING THE FIRST TIME IF MR. BENDER CAN'T CONVINCE THE ADVERTISER TO STRAIGHTEN THINGS OUT, BUT SUSPENDED ADVERTISING PRIVILEGES WILL ELIMINATE ANY CHANCES OF A BAD SECOND TIME FOR YOU OR A FIRST FOR THE NEXT GUY. SO SPEAK UP!

NOW FOR THE MOST DISGUSTING PRACTICE I CAN THINK OF! READ BIDDING RULES AND SEE IF THE DEALER RESERVES THE RIGHT TO SEND DUPLICATES OF LOTS TO UNDERBIDDERS. THIS IS A RIP-OFF YOU PAY FOR AND ENABLES THE DEALER TO PICK UP A FEW BUCKS AT BIDDERS EXPENSE. IF YOU BID \$7 AND PRICES REALIZED SHOW THE HIGH BID TO BE JUST THAT, JUST THINK OF HOW MANY GUYS WOUND UP WITH THE SAME THING FOR UP TO HALF WHAT YOU PAID! MAKE YOU MAD? YOU HAVE A RIGHT TO BE! NOW LOOK AT THE PRICES REALIZED AND SMILE IF YOU SEE \$7 AND PAID \$5 YOURSELF. GUESS AGAIN! DO YOU HONESTLY THINK YOU, THE LOWER BIDDER, GOT THE SAME GRADE TOKEN AS THE HIGH BIDDER? DON'T THINK THIS PRACTICE IS CONFINED TO ONLY A FEW LOTS, EITHER; IT MAY APPLY TO 50. MY ADVICE? THROW THAT MAIL BID SALE AWAY IF YOU SEE THAT RULE! NO ONE CAN JUSTIFY DOING THIS LOGICALLY AND WE BOTH KNOW IT! IN CONCLUSION, READ RULES CAREFULLY, DISREGARD ESTIMATES AND PAY WHAT YOU WANT, MAKE SURE LOTS ARE AS REPRESENTED, IF YOU BID OVER \$10 WATCH FOR THE LOWERING OF YOUR BID TO 10% OVER THE NEXT HIGHEST WHEN YOU GET PRICES REALIZED, PAY PROMPTLY AND GET THAT EXPERIENCE! HOPE I'VE BEEN ABLE TO HELP YOU!

ODD AND UNUSUAL TOKENS

ALUMINUM 26MM ROUND

OBV. Old Town Pump / 1651 / N. Wells / St. / Chicago, Ill.

REV. Good for / 1 / stein / of beer

Many 1960's establishments popularized the purchase of a stein of beer rather than the traditional glass, although the practice has always been with us and is prevalent throughout Europe. I have always wondered why more of these tokens are not encountered. It seems that the older "good for 1 stein" are just as numerous! I look forward to hearing from METCA members (and don't forget rubbings) who have beer or whiskey unusual "good fors". I'll gladly feature them - I've always said that this is the readers column and this holds true! Let's hear from you!

BRASS 24.5MM ROUND

OBV. Chicago's finest food / Harry's / New Yorker /
400 N. Wabash / 25

REV. Large private / banquet room / with / floor show free

Another example of why common tokens can be most interesting! I've never seen a token with a similar reverse and we know floor shows don't come cheap anymore! Harry's was a very popular Chicago night spot, but I don't recall the number of years the New Yorker was in business. Few people know more about Chicago establishments than METCA member Ben Odesser so perhaps I'll hear from him. "TRADE TOKENS OF ILLINOIS" by Ore Vacketta lists 4 or 5 varieties and/or denominations of tokens issued by Harry's.

I might add that Ore is working on a supplement to his first work, probably contingent on the number of additions he gets, so if you have any Illinois tokens you might want to send rubbings, impressions or descriptions with line arrangements and note size in millimeters, metal type and shape. Send to:

ORE VACKETTA BOX 3, WESTVILLE, ILL. 61883

Regular readers may wonder why I seem to "plug" so many books, but for my money I can think of nothing more interesting than a few nights with a new token book. You'll find out the value of your tokens, rarity, new information, maverick identification and more! I might add that a good response regarding new finds can add to a possible supplement. Let's help out Ore (and ourselves in the long run) and get a letter out to him! I know I've a couple dozen unlisted pieces I'll be sending.

BRASS 17MM ROUND

OBV. C&M / Food / Store / 3909 W. 16th St. Chicago
23, Ill.

REV. Good for / 2¢ / in trade / with our / empty
bottle

This is a nice "miniature" token which is also poorly struck and accounts for the inferior rubbing. This token was issued by the store as an initiative to bring back empty bottles for the 2¢ indicated. This was a fine idea during the early 1950's and would seem to be now considering the abundance of glass trash littering the highways! Perhaps some mid - 30's METCA members did as I and many others during the 1950's did; going out for a full day picking up bottles, cleaning them and returning them for a little change - perhaps 30¢! However, that amount bought a lot of nickel candy bars at the time. No doubt about it, tokens are nostalgic and interesting.

OBV. Chicago Trade Association / Chicago / Ill

REV. 5¢ Gum Check

An interesting study of 2 tokens! The Burnham Gum Machine Works token bearing the reverse address could well qualify as a storecard as it bears no denomination. I'm more of the opinion that this would be an amusement type of token though. I feature the pair because the Chicago Trade Association 5¢ Gum Check was probably associated with the Burnham piece as they are both the same metal, size, shape and cut-out. And when did you last see a 5¢ gum check token? I'd like to know a little more about this pair so if any reader can help with information I'll print it. Perhaps both of these will be listed in the upcoming Alpert/Smith Amusement Token Catalog. I recommend this work to all readers! Amusement tokens are no longer "junk box" items - some have sold for \$20! Writing Mr. Alpert at 11106 National Blvd. #1, Los Angeles, CA. 90064 would probably reserve a copy of this work, then you can go out and find those "sleepers"!

The average amusement token price is most certainly not \$20 and I don't wish to mislead the reader, however you'd be surprised at how many of these are priced in the \$1 to \$3 range. More important, the diverse themes, compositions and denominations represent a fascinating series which has been overlooked for far too long. I hope the Alpert/Smith work will provide interesting reading for all METCA members.

This column's February, 1979 "Krickerbergs Bakery" token has been the subject of letters from both Missouri and Illinois collectors indicating it may be of 1890's vintage and from either of these two states. Thanks to all who wrote!

Congratulations to Al and Nina Nystrom from Seattle on their receiving the Krause Publications Numismatic Ambassador Award at the recent PNNA Convention held in Spokane. This is the third year in a row that this award has been presented at the PNNA. Irene Alexander and Marge Farnam were previous winners. Krause representative Cliff Mishler states this is the only area in the country to have won three years in a row.

Lee Nott, METCA's Maverick Editor, reports that at ANA the token dealers seemed to be doing a great deal of business. Paul Cunningham, Rich Hartzog and others appeared to be consistently busy. Lee noted that there were five or six token dealers this year at ANA compared to two or three in past years. The ANA Program even had a talk by Bill Henderson about "Gold, Whisky, and Wild Women" mostly featuring mining towns in Colorado with several pictures of old checks, mining tokens, and some Colorado medals from his collection. We are pleased to note Lloyd Walker received the Mishler Gold Cataloguing Award this year (for his Oklahoma Token Catalog).

Exonumia Auction Number 31 of Paul Cunningham has a mailing deadline of August 28, 1979. This offering features prov. sales tax tokens, hard rubber tokens, saloons, spiel marke and food stamp tokens. Approx. 2000 items appear in the sale along with a retail listing of exonumia catalogs. A retail listing of transp. tokens is also included. Catalog subscription for a year at first class rate is \$4.00. Write Paul at Box 1, Tecumseh, MI 49286.

Highlights of this Eighth Sale of US Exonumia include a nice selection of scarce and high grade CWT. The listing is free upon request to METCA members.

Stephen Alpert, PO Box 66331, Los Angeles, CA 90066 (213) 478 - 7405 offers a token and medals fixed price list (79 - 1). Over 1300 items appear in the listing.

Don't forget to attend the Tenino Wooden Money Society's 4th Annual Show Sept. 16th from noon to five at the Tenino Elementary School (See ad appearing in this issue). Hope to see many of you at the show. All you Grays Harbor, Tacoma, Olympia, and Seattle collectors should attend the show.

Cliff Mishler of Krause Publications, Iola, Wisc., and Past President of TAMS was speaker at the first meeting of GSTEA - Georgia State Token - Exonumia Association as reported by Sec - Treas. John F. DeLoach and President R.W. Colbert in the April - June 1979 GSTEA News Bulletin.

Wm. David Mullins, Tennessee collector, reports that a group of NSCA members and others are planning a token swap session at the Quality Inn South in Chattanooga, Tenn. at I-75 East Ridge Exit on September 22nd (Saturday) in Room 327. The Tennessee State Coin Show is the same weekend at the same motel. All token collectors in the Tenn., GA, and ALA area are invited.

Thanks to Joe Schmidt and George Owen for the four "giveaways" they contributed for the Pacific Northwest Token and Medal Show to be held in Seattle, Sept. 29 and 30.

Regarding the SHOW - See ad on the front page of this issue and the front page of July TTT - Jim Rasmussen, PO Box 214192, Sacramento, CA 95821 is coordinator for a car pool arrangement from California to Seattle for the Seattle show. I have given him some motel information, etc. Recalling last year's show - there was a lot of western state exonumia, saloons, and misc. material. Many of the collectors up here collect several states in the west so a great deal of fine trading material was available as well as a lot of nice material for sale. I urge all of you attending to bring your collections, trading material, etc. as we will have a lively bourse as well as a number of cataloguers will hopefully photograph and make listings. We are going to try and have some maverick meetings, hourly door prizes, etc. Last year's two days made the whole year for many of the collectors.

While there is still over a month before the show I am going to make a few recommendations for motels (esp. if you are far away and not familiar with the area): Continental Plaza Best Western, 2500 Aurora N. Out of town free toll # 1 - 800 - 528 - 1234; Imperial 400, 325 Aurora N. Toll Free Res. 1 - 800 - 531 - 5300; Loyal Inn Best Western, 2301 8th, Toll Free Res. 1 - 800 - 528 - 1234. All of these are near or on Aurora (U.S. 99) towards town within two miles from the show. My number is 782 - 5769 if you are at the airport. There will be bourse tables available Saturday and Sunday, however, those of you planning to have a table should send \$15.00 for 2 days, \$10.00 for one day to Bary Bender, 752 N. 74th, Seattle Wash. 98103. At this time Larry Elman, International Collectors Service, Woodland Hills, CA is planning to attend the show. W.W. Walker, Lew Egnew, myself and others are going to have bourse tables as well. Please don't wait until the last minute to decide on a table. I encourage collectors to bring their postcards, small collectibles, etc. You never know what it takes to make a trade. I will have postcards for most of the western states. I will have some nice trading stock in cards and tokens besides my bourse material. Every METCA member attending the show will receive a free full page ad coupon, back issues of TTT will be available free, hourly door prizes (contributions of tokens, etc.), and other happenings should make for a nice show.

Pardon the short Editor's Echoes this time as I want to make this issue responsive to the Counterstamp work of George Owen and Joseph Schmidt. I also have a number of fine articles that I will have to include in further issues. Thank you for your time and effort in preparing these contributions, however, please bear with me regarding their insertion in Trade Token Topics.

COPPER 39MM ROUND 2 LOOPS
FOR SUSPENSION
UNIFACE

CHICAGO, ILL. / MARCH 9 - 27. 1897 /
(MAIL POUCH ON WHICH IS INSCRIBED
"U.S. / MAIL") / TRANSPORTATION BADGE
SAN FRANCISCO, CAL.

I'm sure this piece has puzzled Syd Joseph for a few years! I almost hesitate to call this item uniface because the dozens of reverse scratches may have obliterated a lightly engraved name. No struck letters or numbers were on the reverse, however. Now to a little speculation on my part! Note the length of time indicated by the date - 18 days. This may denote a type of "event" or the like in which a pouch was to be delivered, probably by hand as the rails would bring it to San Francisco before 18 days - or would it? I'll leave this speculation up to the reader!

Addressing myself to other explanations of wording on this piece I'm left wondering if "transportation badge" might not show the observer that the bearer of this badge or medal was in this event. The 2 loops raise speculation that a bar, ribbon or other type of ornamentation was attached. I believe this was true but I know of no fair or exposition being held at this time in either city to warrant this action by the U.S. Mails if they indeed had anything to do with it! So again I hope METCA members in Chicago or San Francisco can help. Perhaps the date co-incided with the U.S. mail founding or some similarly important date in U.S. mail history, but again I submit to conjecture. Let's hear your feelings!

BRASS 28.5MM ROUND

OBV. D. U. K. U. V. / No 1 / CHICAGO

REV. 5

Georgia exnumist R.W. Colbert sent a rubbing wondering if I could identify the piece for him, which I can't. A search through a book that has a list of Chicago Fraternal Organizations for the year 1882 showed nothing, nor did a similar reference from 1902. I would unhesitatingly consider the diework to be 19th century, perhaps the work of L. Boche. This firm used ornamental numerals, especially the 5 without the usual ¢ sign following. I feature this piece as I believe it will be harder than the May columns "A.O.U.W." to identify. Informed METCA members sent me 11 letters concerning that token! Ron Greene of Victoria, British Columbia indicated he has a number of AOUW lodge badges and tokens in his collection. This "quasi - labour fraternal society ... was founded in 1868 by John Upchurch and was the first fraternal society to pay substantial death benefits in the form of insurance to a deceased member's family"; to quote Ron. 5

PUBLISHED BY METCA (MERCHANT TOKEN COLLECTORS ASSOCIATION)

A UNIQUE MARRIAGE BETWEEN NUMISMATICS & EXONUMY BEST DESCRIBES THE COUNTER-STAMPED COIN. BECAUSE MANS IMAGINATION IS LIMITLESS EVERYTHING FROM SWANS AND PIGS TO HANDS AND HEARTS HAVE BEEN STAMPED ON COINAGE. FROM AN EXONUMISTS POINT OF VIEW THE MOST DESIRED WORDING ON A COUNTERSTAMPED COIN IS A MERCHANT'S NAME AND HOPEFULLY AN ADDRESS & CITY OR BOTH.

THIS WORK, THE MOST COMPREHENSIVE LISTING YET COMPILED, SHOULD BE A HELPFUL AID IN IDENTIFYING COUNTERSTAMPED COINS BEARING A NAME ONLY. FURTHER, THE MAJORITY OF COUNTERSTAMPS LISTED SHOW PRICES REALIZED OR CATALOGUE PRICES. FOR THE FIRST TIME BOTH COLLECTORS & DEALERS NOW HAVE A BETTER IDEA OF WHAT PRICE TO BUY OR SELL.

THE AUTHORS LOOK FORWARD TO WHAT MAY WELL BE THE MOST DEFINITIVE WORK ON THIS SUBJECT NOW BEING PREPARED BY MR. GREGORY BRUNK, 1022 ORA, WATERLOO, IOWA, 50701. WE URGE READERS TO SEND CORRECTIONS AND ADDITIONS TO THIS WORK TO MR. BRUNK & GIVE FULL DESCRIPTIONS OF THESE COUNTERSTAMPS. A COPY OF MR. BRUNK'S WORK MAY ALSO BE RESERVED SIMPLY BY SENDING A POSTCARD TO THE ADDRESS NOTED. UNTIL THIS PUBLICATION IS AVAILABLE WE HOPE "BUSINESSES, MERCHANTS AND PRODUCTS ON COUNTERSTAMPED COINS" WILL HELP INFORM THE HOLDER OF COUNTERSTAMPED COINS OF THE U.S.

Regarding the Pacific Northwest Token and Medal Show: At this writing the show is shaping up rather well. There should have over fifteen dealers for the weekend as well as others from nearby states that will set up for one day. Last year we had several dealers arrive for just a few quick hours on Sunday thus bringing fresh material to the bourse. We have two AK dealers planning to set up in the bourse as well as a large contingent of AK collectors flying down for the show. Furthermore, I have been consigned a small selection of nice AK tokens and postcards to be sold to the highest bidder (on an individual basis) at the show. A MN collector has indicated he may fly out to the show. One CA dealer has signed up for a bourse table. We are hopeful that a carload or two of California collectors make it up to show (they are trying to get the carpool going). Many WA dealers are planning to set up at the show. OR and ID should be represented, too. Last year we had an outstanding bunch of Idaho "diehards" attend the show. We are hopeful one or two British Columbian dealers/collectors will attend. Tables will be available at the last minute (one day or two). I have personally alerted every OR, WA, and ID collector I am aware of and flyers have been given to prominent coin and antique stores in the Seattle area. A lot of nice Western and other states' material should be available at the show. Coins and stamps are permitted at the show, however, we are trying to emphasize the exonomia appeal. Books, postcards, small collectibles, paper americana, etc. are to be in evidence at the show. Most exonomia collectors have other areas they collect, so we are encouraging any tangential areas within reason. Trust many of you will make a concerted effort to attend the two day show. Give me a telephone call if I can pick you up at the airport (I'll do my best). We will have display cases for the dealers.

David Fronius (AK dealer attending the show) describes the second annual Pacific Northwest Token and Medal Show as "The Second Annual Gathering of Accumulators of Washers, Slugs, Tokens, Medals and Other Assorted Merchant Advertising and Coin-of-the-R Realm Substitutes (Wooden, Synthetic, and/or Metallic in Nature) Used in Lieu of Coinage and/or Currency to Perpetuate Business and/or Businesses, Association". He is probably right!

Remember - September 29 and 30, 1979 is the time of the Second Annual Token and Medal Show to be held in Seattle, Washington at the Norselander Restaurant (Norway Center), 300 3d W. The August issue will be a good reference for hotel reservations, etc.

MD - TAMS: Millard W. Hajek is president of MD-TAMS, P.O. Box 3273, Baltimore, MD 21228. Millard writes that MD-TAMS is "a relatively new organization founded in April, 1979. The objectives of the Society are to operate as a non-profit organization for the purpose of education, encouraging and promoting interest in the tokens and medals, and other related exonomia, especially for the State of Maryland; to research and document and disseminate this information, and to cultivate fellowship and camaraderie among collectors and researchers. One of the goals of the Society is to publish a comprehensive catalog of tokens and medals for the state of Maryland".

PRESS RELEASE: The new Alpert and Smith "Amusement Tokens of the United States and Canada" catalogue, listing over 10,000 tokens and values, with photos of over 500 tokens, will be available in early October, for \$24.95 postpaid. Order your autographed copy now from Stephen P. Alpert, P.O. Box 66331, Los Angeles, Calif. 90066 (California residents add 6% sales tax). The authors apologize for the excessively high price put on this book by the publisher.

PRESS RELEASE: Steve Alpert just privately published another catalogue on "Large Lucky Souvenir Coins." These paperweight-sized medals generally have a coin-like design on one side and mention or illustrate a tourist spot or attraction on the other side. They have been issued from all over the country since 1914 but they have been an obscure series until now. The new booklet lists 271 lucky coins using the Atwood format, with 48 pieces illustrated by photographs. The catalogue is priced at \$5.00 each, postpaid (plus 6% sales tax in Calif.). Dealer discounts are available. Order from Stephen Alpert, P.O. Box 66331, Los Angeles, CA 90066.

YUKON TRADE TOKENS by Scott A. Simpson and Leslie C. Hill: This 27 page catalogue is a must for the Yukon Territory collector. A nice historical documented attribution accompanies each token in the catalog. A page of Yukon Mavericks (attributed to Yukon Terr., however, the Province or Territory is not on the token) appear in the catalog.

I (Bary Bender) will have a copy of Stephen Alpert's "Large Lucky Souvenir Coins" at the show for you to peruse. This has to be the reference work on the series. I will also have Cecil C. Tannahill's "Attributed Canadian Maverick Tokens" at the show as well as "Yukon Trade Tokens" by Scott A. Simpson and Leslie C. Hill. Given the chance to view the new catalogues I think you will find yourself ordering them. Order information on the catalogues will be available at the show. I will have a fairly comprehensive token library at the show for reference purposes and so that you can see them in case you care to order them. Terry Trantow is expected to have his "Lumber Token Catalogue" available at the show. If we are lucky maybe one or more of the recent British Columbian cataloguers will have his catalog/s at the show.

In the July 1979 TTT on page 16 Lot 2 - Sourdough Lil's Est. 1893 is not ALASKA. It is Westport, Washington - quite a tourist attraction. What it is is an eating establishment that moved to Westport in 1947, bringing to this adventure-packed port the color, the traditions & the spirit of the Klondike of the old Gold Rush Days. Reminiscent of those lousy days, Sourdough Lil's retains the old sawdust floors, the old time bar, the old saloon player pianos, and last but not least, the world famous sourdough bread. It has an 1893 room.

Glyn V. Farber reports that the Louisiana token catalog (he and Ed Tylenda are working on) has just about reached the 1000 mark.

Jerry Schimmel. PO Box 40888, San Francisco, CA 94140 has List 25 - Food Stamp Charge Tokens, Sept. 1979 for a SASE. His List - 23 is on Sales Tax Tokens.

Williges, PO Box 445, Wheatland, CA 95692 has a new personal token worth 50¢ on any order. Why not send 15¢ and receive it and a 20 page fixed price list of exonomia?

When in Seattle visit June and Larry Hannick at Seattle Coin Shop, 316 Virginia St. They have merchant tokens and for the past twelve years have had a wooden money piece made for their customers. How many have you got in your collection?

Joe Schmidt reports that he has indexed nearly 2000 saloons and is now checking out over 300 MB Sales, price lists, catalogs, etc.

Regarding the Counterstamp Work by Joe Schmidt and George Owen - It is the most complete published to date as both of Maurice Gould's catalogues and Hallenbeck's lacked the amount listed, what coin the c/s was on, or the PR's. This work by Schmidt and Owen should be a reference for some time as Mr. Gregory Brunk who is cataloguing C/S has indicated thus far that his work will probably not include PR's. METCA thanks the authors for this definitive work they so unselfishly shared with the membership.

A member has written to me noting that I seem to give away a lot of free ad space to METCA members who attend shows in my area. He wants to know what folks in his area (midwest) can do to earn free ads. This is a fair question warranting an appropriate answer.

As editor of METCA I tend to run things in a low key manner - I purposely try to avoid political turmoil in the ranks and am very flexible in my modus operandi. I am basically concerned with serving the membership. Without a discourse on intentions, etc. what I am trying to do is keep up the interest in exonomia. With attention given to the question in hand I must admit I am not against giving free ads to any area, etc. All exonomia groups having a convention, gathering, or show can request free ads for drawings. Free back issues are also available (provided the group pays third class postage for the package). About the only restriction I have on free full page ads for a show is that the party winning the ad should be a METCA member. METCA has members in almost every exonomia group. With all the correspondence I have to attend to regarding METCA I simply do not have the time to write each group if they would like ads, etc. Groups should make the request (allow the necessary time for third class postage). Tom Hitt received a full page ad I sent to the NSCA Show. I sent many free ads to the DVVA Show, however, they were never received for some reason. I just recently sent a few free ads to David Mullins to draw at the Tennessee State Show where a number of token collectors are gathering for a session. Whether you are IKO-TAMS, WESTS, SRTC, GSTEA, NSCA, CATC, BATS, BTS, etc. please feel free to request free ads and back issues for your show or gathering. These are METCA benefits entitled to all the membership. No unreasonable request will be refused.

Regarding the George Klann article - George has amassed well over 700 tokens - not the 7,000 misprint that appeared in the company article. The accompanying page on the two gentlemen who collect postal covers fits so well with George's article that I have included it in this issue.

Ghost towns of Minnesota

Three Clinic employees collect "relics" of bygone times and vanished towns

Carrollsville, Ringe, Eagle Bluff, Six Oaks, Black Oak Grove, Union Spring, Looking Glass, Farm Hill, Free Soil, Cross Roads.

Once these villages were a part of Olmsted and surrounding counties. Today they are ghost towns, existing only in the memories of some of this area's elder citizens.

What happened to them? Some were wiped out by changing economic conditions, others by changes in rail routes. Many passed from the scene when rural mail delivery began.

Little remains of these ghost towns today outside of a dilapidated building or a neglected cemetery. But there are other tangible "relics" of these early settlements, and three Mayo Clinic employees make a hobby of collecting them.

George Klann, x-ray technician, is a trade token collector with a more than token interest in the once-thriving businesses of these vanished villages.

The trade token was a device used by merchants to stimulate sales in the absence of cash, and to promote commerce, primarily the merchant's own commerce. They come in a variety of sizes, shapes, colors and descriptions—but most are coin-shaped and made of brass, nickel or aluminum. Almost all carried advertising and usually were honored only by the merchant who issued them, and then solely for goods or services.

Tokens were used by almost every saloon and pool hall, cigar store and gambling den, bakery, dairy, and by a large proportion of the general stores, hotels, and restaurants. In Minnesota, they achieved their greatest popularity during the years 1890 to 1930, when shortages of change were commonplace.

George started collecting Minnesota tokens 15 years ago and has amassed 7,000 tokens—the fourth largest collection in Minnesota. He finds them at coin

shows, flea markets, garage sales and auctions. Many are found in old button boxes. Often he'll acquire tokens from older residents, "who always have a story to tell about the token and the business that issued it."

Tokens from now defunct towns and businesses are the most popular ones to collect. So this summer, George is sifting through the remains of ghost towns in Olmsted county, in search of trade tokens that may have been dropped by early inhabitants.

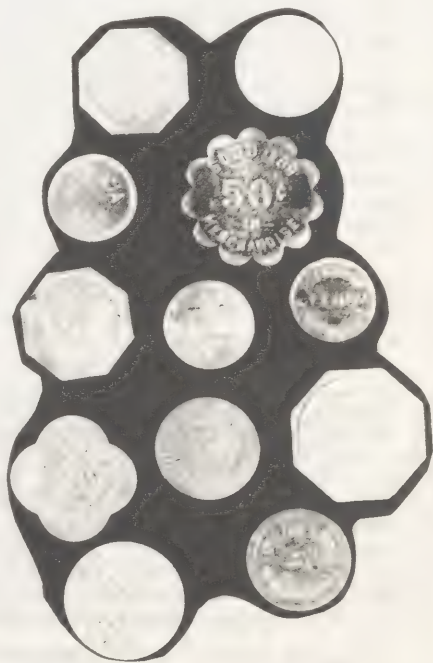

George Klann

Rochester itself is considered a unique town for Minnesota token collectors. Its merchants issued fewer tokens than other towns in Minnesota at the time. "That's because there never was an acute shortage of change here — thanks to the Mayo brothers," George said. Drs. Will and Charlie Mayo made sure local banks and businesses had sufficient change, as patients and visitors were reluctant to accept tokens which they might not be able to redeem.

Among the Rochester tokens in George's collection are a six-

sided aluminum token issued in the 1890's by the Shuster Brewery, Rochester, (closed by Prohibition) good for ¼ keg of beer; a nickel-sized token from the Valencia Ballroom (burned down 20 years ago) good for 5¢ in trade; a brass token from the White House Tavern (burned in 1918) good for one tune on the player piano; a 10¢ token issued by the Veterans Conservation Corps (forerunner of the CCC work camp of the 1930s) spendable at designated Rochester stores; and a mysterious token from the Manhattan Club, Rochester, good for 5¢ in trade. The Manhattan Club token was recently found at the Olmsted County fairgrounds by a metal detector, and George knows nothing of the establishment.

Some old postal covers.

John Hutcheson and Putnam Kingsbury

Putnam Kingsbury, Personal Services and Benefits, and John Hutcheson, Medical Graphics, collect postal covers—another tangible clue to the existence of towns no longer on the map.

Postal covers are used envelopes with a cancelled stamp and postmark. The postmark identifies where the letter was mailed from and the date and time of day it was sent. Many post offices also stamped incoming mail with the date it was received.

In the early days of the postal system, even the smallest town had its own post office and postmark. In Olmsted County alone, over 50 post offices existed during the late 1800s. Today there are only 6. Why the demise of so many post offices?

"Their disappearance was caused by the rural free delivery system, established by the U.S. Government in the mid-1890s," Put Kingsbury said. "Before that, there wasn't anyone to deliver the mail, so farmers would pick up their mail at small 'postal stations' where the local postmaster resided." Each of these postal stations had its own name and postmark.

The government also set up

postal stations about every 6 to 10 miles along the railroad tracks for the convenience of farmers. Again, each postal station had its own name and postmark.

As these postal stations were closed, so ended the existence of another "town" that may have been nothing more than a solitary building on the prairie.

Both Put and John have acquired their collections of postal covers through friends and acquaintances, and purchased covers at stamp shows and through ads in stamp collectors' publications. Put claims the most expensive cover, an envelope postmarked in the now defunct Minnesota town of Hanson on February 2, 1880, and addressed to E. A. Knowlton, a well-known Rochester business-

man. That one cost him \$12. Another interesting cover is postmarked in Oakwood, Minnesota, and dated January 4, 1881. That post office existed for only two years.

Presently, Put and John are assembling an exhibit of postal covers from Olmsted and surrounding counties, to be turned over to the Olmsted County Historical Society when completed this fall. "The exhibit will show the number of post offices that existed in these counties during the late 1800s," John said. "It will provide valuable information on the development of the local postal delivery system."

The exhibit will also recall the names of places long forgotten, Minnesota ghost towns.

FALL MEETING AT CUMBERLAND GAP, TENNESSEE

Make your reservations now and plan to attend the 13th semi-annual meeting of the NSCA.

WHERE: Cumberland Gap, Tennessee (3 miles south of Middlesboro, Kentucky)

WHEN: Saturday, October 6, 1979

PLACE: Holiday Inn—U.S. 25E (615-869-3631)

PROGRAM: Scrip show, trading, and selling beginning at 8:30 AM. Business meeting at about 1:00 PM.

Plans now are to have a Dutch dinner on Friday evening tentatively planned for 7:00 PM. The Mini-Auction held at Hawks Nest in May seemed to be appreciated by all, so we are planning to have another, and hopefully larger one, immediately following dinner on Friday.

Reservations should be made directly with the Holiday Inn by mail, telephone, or through your local Holiday Inn. Please specify that you will be attending the NSCA meeting since a block of rooms has been reserved for us. You are urged to make your reservations at once because the Holiday Inn is usually full at this time of year. Since the Dutch dinner is planned for 7:00 PM, please try to arrive by 6:00 PM.

The Holiday Inn at Cumberland Gap is very near the Kentucky-Tennessee-Virginia border. While you are here, we hope you will take the time to visit Middlesboro, the famous Lincoln Museum at Lincoln Memorial University, the Cumberland Gap National Historical Park, Gudjo's Cave, and Pine Mountain State Park, to mention some of our major attractions. Local people will be pleased to guide and assist you in every way. We are looking forward to your enjoying yourselves and making this the best NSCA meeting yet. However, along that line it should be mentioned that Middlesboro is a "dry" territory. Beer is available at the Holiday Inn and at other nearby places in Claiborne County, Tennessee.

Come early, stay late, and let's all have a good time and good trading. If you get lost or need help or information, call Crawford Blakeman, Middlesboro, Kentucky, phone 606-248-3801, or George Breeding, 606-248-7620.

ALUMINUM 31MM ROUND

OBV. 25¢ / The Vin / 68 E. Lake St. / Chicago / anti trust / cut prices /

REV. This is good for/ 25¢ / on a dollar or more / purchase / each 10th customer / gets one / free

Here's a token that has me stumped. I suppose I should gather some information on this piece myself as few tokens have asked more questions than this. I would think that a 10% discount token would appeal more than having every 10th customer get a token! How could you keep track? Why not just issue a 25¢ token period? What did the Vin concern itself with businesswise? Finally, why advertise anti trust cut prices? Is the "anti trust" of a political nature statement? Why do we see no other anti trust pieces? A lot of questions that need answering and all from a not uncommon token! I hope to hear from someone on this one, believe me I'll write up the answers to the questions posed!

GILT BRASS 38.5MM ROUND

OBV. Northwestern / Rathskeller / 100 in drinks

REV. There's / no place near / this place that / looks like this / place - so this / must be the / place

A cleverly worded and attractive token! I've never seen another with such a reverse. No doubt the recipient of this token stopped to read this a second time and that's probably what this establishment in Chicago wanted it's patrons to do.

BRASS 26MM ROUND

The picture will eliminate the need for description! All in all a fascinating piece! The "C. of A." probably stood for "Company of America", but that leaves us with "L.P.". I would think that a token good for a car of stone would be identified but this is not true as of yet! Can our friends at the NSCA help us out a second time around? The National Scrip Collectors Association concerns itself with coal tokens and the like and a member may help out.

NEIGHBORHOOD / HOUSE / GILMAN / COLORADO rev: GOOD FOR / 1¢ / IN TRADE Brass, Octag., 23 mm. Note, ONE spelled out vertically inside numeral, will trade this very nice token from a tough town for a nice Texas token. State offer first letter, rubbings great.

JOHN MUTCH 3726 BUCKINGHAM CT. BOISE, IDAHO 83704.

Also known in copper this unusual pictorial reverse also bears the popular & collectible Boot & Shoemaker obverse. Readers should know that similar tokens with the address reading "312 Cottage Grove Ave." are Civil War Store Cards while this piece is strictly a store card of somewhat lesser value. Although now out of print, Miller's work on merchant tokens prices this piece at \$1.50 Fine & \$3.50 Uncirculated. This is most erroneous as the \$3.50 price was reached during the early 1950's! A specimen sold a few years ago by Presidential Coin & Antique Co. brought \$32.50. This points out the wisdom of buying prices realized with your favorite mail bid dealer's sale! I now know of an uncirculated specimen which could not be procured by a private party for \$45 as well. Expect this early token to be weakly struck about the center obverse.

I have decided to reduce my Oregon collection to "one from a town" plus all varieties from Portland. As a result, many better Oregon tokens will appear in my auction during the next several months. Trades for Oregon, Washington or Midwestern towns I need, as well as cash bids, are welcome. No minimum bids but I reserve the right to reject bids I feel are inadequate. Thank you. All tokens listed appear old unless noted.

October 5, 1979.

An open letter to METCA members:

The 1979 METCA Show is over, and we are back in Fairbanks catching up with our work. The trip to Seattle was well worth our while. I think that most who attended will agree that it was a success.

I would like to take this opportunity to thank those involved with the show for their friendship and hospitality. It was a very enjoyable weekend. I am looking forward to coming down to Seattle again next year.

N.S.A., Inc. purchased enough material to warrant a new price-list. This will be out about December 1st. It will be sent to our active customers, and to those requesting it. There will be a few semi-scarce, older tokens, and a fair number of more modern items.

Also purchased were several very tough Alaskan tokens from Nome, Skagway, and Yakutat. These were purchased for specific customers and have been sold.

More than 90% of our new acquisitions were purchased from other dealers. What does this mean to you, the collector, with Alaskan tokens for sale? It means that we are willing to pay a fair price to acquire new stock to meet the needs of our customers. We are willing to buy all Alaskan tokens and medals that you might want to sell. We will not pick out the good material, and leave you with the junk.

This is not to say that other dealers will not pay a fair price for your Alaskan tokens. The dealers we met at METCA will pay a fair price, based upon the needs of their customers. They may have 10-20 buyers of Alaskan tokens. Our mailing list is approaching 200, and we probably have those 10 to 20 people on our mailing list if they are serious Alaskan collectors.

In short, we specialize in Alaskan tokens. You wouldn't sell a choice large cent collection to a world coin specialist, or would you? We also buy items from other polar regions, including: the Yukon, Northwest Territories, Greenland, Spitzbergen, Siberia, Falkland Islands, Tierra del Fuego, and Antarctic related items.

Thanks again to all those who participated and made this show a success, and, a special thanks to Bary, Jan and Dianne (the "Eskimo Yo-Yo Kid") Bender for their hospitality.

Sincerely yours,

Dick Hanscom
President

Williges, P.O. Box 445, Wheatland, CA 95692 has a new 20 page exonomic fixed price listing available upon request to METCA members. Enclose a 15¢ stamp and you will receive his personal token.

Lee Nott writes that he and Jim Wright have finished working on the first supplement to their Colorado Token Catalog. They hope to have it available in December or January. It will list over 700 pieces, including 25 new towns and 20 saloons.

Canadian collectors should periodically write Cheramy Coins, P.O. Box 5214, Station B, Victoria BC Canada V8R 6N4 for his token and medal listings. Late Sept. John issued a 12 page listing. Mr. and Mrs. Cheramy attended the two day Pacific Northwest Token and Medal Show held Sept 29 and 30th in Seattle, Washington.

I'll write up the Seattle Show (held in late Sept.) in the December issue of Trade Token Topics \$1.00 will get you the next three issues of Dick Grinold's Exonomia Lists. Dick's fixed price lists have some outstanding material. Write him at 627 Polk St. NE, Minneapolis, MN 55413.

Why not purchase one of the recent exonomia catalogs for a gift for yourself at Christmas?

METCA Maverick Editor, Lee Nott, reminds members that in submitting tokens for the column to please adhere to at least two of the following categories in order to have your tokens listed: (1) business name; (2) street address; (3) owner name; (4) city name. In recent months Lee has had to refuse several new listings since they did not have the required types of information. These requirements will increase our chances of attributing nice mavericks.

Dave Mullins reports that the token collectors who gathered at a meeting during the Tenn. State Coin Show had a grand time trading, buying, and selling tokens. Over 20 attended.

Noted that in the 14 Nov 79 Coin World Bill Williges was a quoted reader (with comments) in Q. David Bower's column. In the same issue noted that Lee Woodbury took 2nd place with his "Florida Lumber Tokens" at the St. Petersburg Coin Show. At the same show FTS (Florida Token Society) took 1st place with their exhibit.

When running mail bid sales in Trade Token Topics please give a definitive statement on the manner in which you wish to conduct your sale. Your definitive statement will at least give the bidder the information necessary for him/her to decide whether to bid or not. A clear statement of your intentions on conducting the sale will make it clear to the bidder to act accordingly. A few brief statements will clarify reduction of bids, or not, postage and insurance, or not, and other "problem areas".

The Northwest Token and Medal Society (Seattle, WA) is presently taking orders for their new catalog of Washington State Scrip. Price is \$6.95. The catalog lists all scrip from the state, over 100 pages and full of illustrations. Approximately 18 pages of further listings are holding up the completed catalog. Catalogs are available in loose pages, in hole-punched pages, and even hardbound (at an additional charge). Orders can be mailed to Nina Nystrom, c/o FNNA, 19925 1st Ave. So., Seattle, Washington 98148.

It is rumored that a new Alaska token catalog is forthcoming. That will be greatly welcomed!

Paul Cunningham's "32nd Sale" highlighted the IKO - TAMS Fall Meeting and Show in Ohio.

\$4.00 will get you the new Yukon Trade Token Catalog by Scott Simpson and Leslie Hill.

\$24.95 will get you the new Amusement Token Catalog by Stephen Alpert and Kenneth Smith.

Have a Happy Thanksgiving.

**SOME QUINCY, ILLINOIS MAVERICKS-
IDENTIFIED**

The Hi-Hat Tavern is, today located at 1708 Broadway in Quincy, having been in that location for about 10 years. This 25¢ aluminum token was most likely used in the early 1970's.

The Doug Out Bar was located in the basement of the Lincoln Douglas Inn, at the corner of 5th & Maine Streets, in Quincy, until its closing about 10 years ago. The hotel and bar have remained empty since that time. This 25¢ token is aluminum.

Druffel's Tavern, 1000 N. 24th is possibly the oldest tavern in Quincy. Frank Druffel is now retired, but the tavern still bears his name. This 5¢ brass token was most likely used in the 1950's.

Fichter's Tavern dates to the 1930's. Hermann "Ham" Fichter ran a saloon on the north-west corner of 8th & Adams in Quincy. There has been a tavern in this same building for over 100 years, and it is occupied today by yet another. This 5¢ beer check is aluminum.

The 5¢ beer check issued by Red Bickhaus was issued about 1958. He ran a tavern on the corner of 18th & State Streets in Quincy. The Bickhaus family is an old Quincy family; his grandfather started the Bickhaus File Works on Broadway in the 1880's. This 5¢ token is brass.

D. S. Hunsaker and Anton Krins are both listed in the 1920 R. G. Dun Directory as distributors of soft drinks. Both tokens are GF 5¢ in brass.

The Cedar Crest Country Club token is fairly recent; about 1975, and was issued in lieu of cash prizes won by members. This 25¢ aluminum token was used at the bar.

Quincy is known as the Gem City. Many businesses carry "Gem City" as part of their name today. The Moose Lodge has been located on Maine Street, Hampshire Street, and is today located at 209 N. 5th Street. This GF 5 IM aluminum token in brass is one of several issued by the Quincy Moose Lodge.

Arthur Odell started Odell's Jewellery about 1918. It was originally located at 118 N. 5th St., and later moved to the 500 block of Maine St. This beautiful CN Good For 5¢ token befits a jewellery store. The token reads "5 stores." Their locations are uncertain; but most likely were all in Adams County.

Several of these tokens were acquired from George Hosek; some from James R. Nelson of Pioneer Advertising Co., of Quincy. Both have been a tremendous help in my collecting and cataloging efforts in my search for Quincy, Illinois exonumia.

UNIFACE BRASS 47MM 5 POINTED STAR

Fall Festival/(head of jester)/Oct/
19-22/Quincy, Ill/1887

This attractively ornamented piece was sent by Bill Massey and points out that not all exonumia is round! Fall festivals were popular events during the last century and Quincy's was probably no exception! Perhaps the origination of these and other year end festivals utilizing similar themes stems from the joy early workers of crops found in a bountiful harvest. Most of the past century saw the majority of our populace engaged in agricultural activities of some sort - the opposite of today's urbanized society!

Despite this column's title, I've made a point of showing all types of exonumia! Admittedly, I have not featured one of the fastest growing fields of exonumia - pinbacks! This part of our hobby is truly fascinating and offers color, imagination and design that is rarely apparent in most tokens. Bill Massey sent a description of this prize for his Quincy, Ill. collection he recently obtained. The color is tan with the suitcase brown. Perhaps this was worn by salesman attending the "street fair" however this is merely conjecture. Notice this celluloid pinback is dated, which merely adds to the "romance" of the piece!

I must note that I wish to illustrate more "unusual" pinbacks in the future, so I hope to hear from our active membership! One note - entirely on his own and with great effort METCA member Dennis Kwain, Box 154, Dundee, Ill. 60118 is attempting to list Illinois POLITICAL pinbacks and related items. Should you own any items that might be of help to Mr. Kwain I hope you will help what I believe to be the 1st attempt to list a states political items!

Again, I remind all METCA members to send me rubbings of their unusual exonumia should they wish to do so! I hope to be able to feature your item(s) as I have those of the many METCA members that have already written.

I have made this column quite short this month so that I will have room to explain the guidelines for listing mavericks. They must have two of the following categories of information on them: (1) business name, (2) owner's name, (3) street address, (4) city name. Please send a written description and a rubbing, along with measurement, material the token is made of, and your METCA membership number. The owner's membership number is printed at the far right side of each listing to allow members to correspond and develop trades. However, I would appreciate members letting me know of tokens they can identify so I can provide that information for all the membership.

I have been informed that maverick number 1392 may be from Baltimore, Md (1914-1940), and 1414 may be from Superior, Wis. Would collectors of those states check to see if they can positively identify them.

I am about out of listings except those sent in by two collectors. If you have mavericks you would like to list, I will try to work them into the next few issues if you will send me up to 10 different within the next three weeks. I would like to hear from collectors in Ariz, NM, Mont, Kans, Ky, etc that have had very few contributors in the past.

On behalf of METCA I sincerely wish you all the Peace and Joy of the Christmas Season. Lumber Cataloguer, Terry Trantow, is moving. After January his new address will be Box 287, Bingen, Wash. 98605. Terry is currently writing the catalog of Oregon merchant tokens.

Bob Alexander, husband of Irene, has been under the weather this past month or so. Members in the Pacific Northwest have appreciated the hard work and cooperation over the years from them. They have shared in the co-hosting the past two years with the Seattle Token and Medal Show. I know that in this time of illness the membership extends our warm wishes for a speedy recovery to Bob.

With sadness we report that Joe Smith, Juneau collector, lost his beloved wife after a lengthy illness. We extend our condolences to Joe and his family during this period of grief.

At this time of Thanksgiving and sharing let us not forget member Chriss Christiansen, who could use some financial help with his costly leg prosthesis. In the January issue we will have an auction of donated tokens for his benefit. I have a number of tokens at this writing that many of you have contributed, and, I hope others will share some of their duplicates for Chriss' benefit.

Rossa & Tanenbaum (Richard and Steve) Tokens and Medals, PO Box 9324, Midtown Plaza Station, Rochester, NY 14604 have an outstanding selection of quality offerings in their first Civil War Token Fixed Price List. Common to rare selections appear in this listing.

Gary Pipher reports an auction of 2400 plus lots in December. Copies with PR's are \$1.50. Write to Gary at 455 Main St., C/O T.M.C., Johnson City, NY 13790. Make checks payable to TMC. Gary is also working on a fixed price listing for early 1980.

Jim Wright and Lee Nott have finished their first supplement to the Colorado Token Catalog. See ad in the classified section and elsewhere.

\$24.95 will get you a copy of the Amusement Catalog by Steve Alpert and Kenneth Smith. Only 400 copies of the catalog were printed - so write and get yours - over 10,000 tokens listed.

The new red hardbound, 208 page, Alaska Tokens, by Ronald J. Benice is out! This catalog contains a great deal of historical information on most of the tokens plus some nice advertisements and photos. Ron's catalog more than doubles the listings of earlier catalogs. Having been an active token dealer for eight years in the heart of Seattle, I, for one, am happy to see this new catalog. I expect it to be a very popular catalog, and think TAMS made a good choice in backing this state catalog. Copies of the new catalog can be ordered from Cliff Mishler, P.O. Box 316, Iola, Wisc. 54945. It sells for \$15.00. TAMS members receive a 10 % discount and only pay \$13.50. Checks should be made payable to Token and Medal Society.

S.L. Steinberg, Box #512, Malden, Mass. 02148 has a 1 page mail bid listing of 77 items of exonomic interest (List #68).

Stephen P. Alpert Tokens, Medals, Collectibles, PO Box 66331, Los Angeles, CA 90066 has a Fixed Price List 79 - 3, 16 pages of exonomia - 962 items.

Charles Kirtley, PO Box 259, Marble, NC 28905 has a ten page Price List (11th) of U.S. Exonomia available free upon request from METCA members.

WESTS had a southern California meeting Oct. 27th in Anaheim. Many CATC and WESTS gathered at the show. At the meeting Frank Earl had his new book - "Slotted, Grooved & Punched, Handbook of U.S. Security Telephone Tokens". The catalogue - a handbook and workbook is available for \$6.50 from Frank Earl, PO Box 4, Jackson, CA 95642.

For information on WESTS write Duane Felsel, PO Box 1302, Los Altos, CA 94022.

Dues for CATC (CALIF. Assoc. of Token Collectors) is \$2.00. Send to CATC Sec. Elaine Willahan, 516 W. 99th St. Los Angeles, CA 90444.

Dues for METCA will be \$8.50 / yr. - 12 issues/year.

Have you a copy of Willige's latest exonomic listing? Write Williges, PO Box 445, Wheatland, CA 95692.

\$4.00 will get you a copy of the new Yukon Trade Token Catalog by Scott Simpson & Leslie Hill. METCA wishes you all the best for the coming year.

BILL FEIST, P.O. BOX 2811, SANTA ROSA, CA 95405 WILL HAVE HIS JANUARY 1980 LIST OF WOODS AVAILABLE AROUND THE FIRST OF THE YEAR. IT WILL LIST WOODS FOR SALE AND TO TRADE. THE LIST IS FREE UPON REQUEST.

JERRY ZARA AND HIS PRISON ITEMS WERE FEATURED IN A REAL NICE SPREAD IN THE DECEMBER 1979 ISSUE OF "COINAGE". JERRY AND HIS PRISON MONEY WILL BE FEATURED AT A LATER DATE IN A SUNDAY ISSUE OF THE NEW YORK TIMES. 1980 WILL FIND JERRY WORKING WITH TAMS TO PREPARE "TEN MONEY II". "TEN MONEY I," WILL BE PRINTED IN THE FEBRUARY 1980 ISSUE OF TAMS JOURNAL.

ROUND CARDBOARD TOKENS WANTED: I am interested in buying or trading for all types of round cardboard tokens. Please write and describe what you have.
David E. Schenkman Box 375, Bryans Road, Md. 20616

TOKENS & MEDALS COMMEMORATING THE BATTLE BETWEEN THE MONITOR AND MERRIMAC by David Schenkman is a new catalog recently completed. The catalog was published by the Virginia Numismatic Association and is available by mail for \$3.50. The V.N.A. is a non-profit organization, and David donated the catalog to them (he makes no money on it). The catalog can be ordered from David (see address in the classified above) or the V.N.A. at P.O. Box 353, Hampton, VA 23669.

Word has it that George Hosek, Nebraska token collector, is working at Philamatic Center, Boys Town. Why not drop by there in your travels and talk tokens with him. Token collectors can tour Boystown and see the museum. Presently, there is a panel of tokens (merchant) 200 - 300, and a panel of transportation tokens (mostly common). I am sure George will be working on adding to the token displays. The museum is only a couple miles off I-80 (& I 680).

If you are interested in Arkansas exonumia should direct their attention to the Carroll County Arkansas Historical Society and their Autumn 1979 copy of their historical quarterly. This issue features a ten page(text and photos) of tokens and chits of Carroll County, mostly of Eureka Springs. The article contributed by Charles Kappen was written for the quarterly by Klute Braswell and entitled "Tokens and Trade Coupons of Carroll County". The Winter 1979 issue should feature the second half of the labor of Charles Kappen (born in Eureka Springs). Eureka Springs, by the way, is celebrating its Centennial this year. Anyone wishing to join the Society (Carroll County Historical Society, P.O. Box 249, Berryville, AR 72616) will receive the four quarterlies with his dues (\$5.00/yr.). Otherwise, the Society sells separate issues at \$1.50 each, plus postage. Arkansas Collectors Take Note!

MEIGS & GAULEY MILL TOKENS, PORT MADISON, WASHINGTON TERRITORY

A limited number of the Meigs and Gauley Mill token reproductions are available. The originals were used in the late 1800's as credit checks and were made especially for the American Indians as pay for their labor in the lumber mill. The Indians would not accept paper checks or chits which made the use of metal tokens necessary. The large one (1) represents one days labor and each token was serially numbered for accounting purposes. The Indians could exchange the token for food, clothing and other goods in the company store. The tokens would usually be kept on a string around the workers neck. The brass, incuse stamped, reproductions are the same size as the originals which are 1 3/8 by 1 3/8 inch.

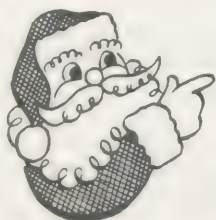

Reproductions of this token are available from Bill Klein, 8551 Hansen Road, NE, Bainbridge Island, Washington 98110. They are \$4.00 each postpaid.

BARY D. BENDER 752 NORTH 74TH SEATTLE, WASHINGTON 98103 - I am seeking tokens from the following towns from southeast Washington: DAYTON, WAITSBURG, STARBUCK, POMEROY, ASOTIN, PRESCOTT, CLARKSTON, CLOVERDALE, UNIONTOWN, COLFAX, PALOUSE, COLLEGE PLACE, WALLULA, ANATONE, and other towns from Whitman County. I also would like to get tokens from Idaho or Wash. that have MORROW on them. Trades will have priority; cash offers will be considered. Other tokens from the state of Washington will be considered, too.
